

**CSODALÁMPA ÓHAJ-SÓHAJ KÍVÁNSÁGTELJESÍTŐ  
ALAPÍTVÁNY**

**AUDITOR'S REPORT AND  
SIMPLIFIED FINANCIAL STATEMENT**

**31 DECEMBER 2013**

**INDEPENDENT AUDITOR'S REPORT  
(Free translation)**

**To the founder and Board of Trustees of Csodalámpa Óhaj-Sóhaj Kívánságteljesítő Alapítvány**

We have audited the accompanying simplified financial statements of Csodalámpa Óhaj-Sóhaj Kívánságteljesítő Alapítvány (the Foundation under review) for 2013, which comprise the balance sheet as at 31 December 2013 (showing a balance sheet total of THUF 70,925 and a profit of THUF 1,544), the related profit and loss account for the year then ended, and the notes to the financial statements including other explanatory information and the public-benefit supplement.

*Management's responsibility for the simplified financial statements*

The management is responsible for the preparation and fair presentation of the simplified financial statements in accordance with the provisions of the Accounting Act and Act CLXXV of 2011 (on the right of association, public benefit status, and the operation and funding of civil society organisations); Government Decree No. 350/2011 (XII. 30.) (on matters concerning the operation of civil society organisations, the collection of donations, and public benefit activities); and Government Decree No. 224/2000 (XII. 19.) (on the special reporting and bookkeeping obligations of other organisations as specified in the Accounting Act); and for such internal controls as the management deems necessary to enable the preparation of simplified financial statements that are free from material misstatement, whether due to fraud or error.

*Auditor's responsibility*

Our responsibility is to express an opinion on these simplified financial statements based on our audit. We conducted our audit in accordance with the Hungarian Standards on Auditing and the applicable laws and regulations in force in Hungary. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the simplified financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the simplified financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the simplified financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the simplified financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the simplified financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the accompanying simplified financial statements give a true and fair view of the equity and financial position of Csodalámpa Óhaj-Sóhaj Kívánságteljesítő Alapítvány as of 31 December 2013 and the financial position for the year then ended, in accordance with the Accounting Act, Act CLXXV of 2011, and Government Decrees No. 350/2011 (XII. 30.) and No. 224/2000 (XII. 19.).

### *Other matters*

We draw attention to the fact that the accompanying financial statements have been issued for consideration by the forthcoming meeting of the Board of Trustees for decision-making purposes and, as such, do not reflect the impact, if any, of the resolutions to be adopted at that meeting. Our opinion is not qualified in respect of this matter.

### **Other reporting requirements regarding the public-benefit supplement**

We have examined the accompanying public-benefit supplement of Csodalámpa Óhaj-Sóhaj Kívánságteljesítő Alapítvány (the Foundation under review) for 2013.

The management is responsible for the preparation of the public-benefit supplement in accordance with Act CLXXV of 2011 and Government Decree No. 350/2011 (XII. 30.). Our responsibility is to assess whether the accounting information disclosed in the public-benefit supplement is consistent with that included in the simplified financial statements. Our work in respect of the public-benefit supplement was limited to checking it within the aforementioned scope and did not include a review of any information other than that drawn from the Company's audited accounting records. In our opinion, the public-benefit supplement of Csodalámpa Óhaj-Sóhaj Kívánságteljesítő Alapítvány for 2013 is consistent with the amounts and disclosures in the Foundation's simplified financial statements for 2013.

**2. Introduction of the main goal and public benefit activities made in this year.**

From 2003 until 31 December 2013 we managed to fulfill 2224 wishes, of which 287 were in 2013 alone. The wishes can be categorized into four groups: receive something (e.g.: driving licence, object), travel somewhere (e.g.: sightseeing), do something (e.g.: drive a car) or meet somebody.

The Csodalámpa always fulfills children's personal wishes. For example games, toys, diving in the Adriatic Sea, meeting Judit Hernádi, or even meeting the members of the AUDI-ETO women's handball team of Győr (fulfilled in 2013).

Based on feedback received from doctors, the children and their parents, the joy of having their wishes fulfilled made the children feel better and contributed greatly to their physical and psychological recovery. As far as we know, 90% of the "Csodalámpa children" are alive and well today.

In June 2013 we submitted our articles of association (amended according to the new Civil Code) to the Metropolitan Court of Budapest. Based on the Court's decision, the Csodalámpa Foundation has retained its classification under the new rules as a public-benefit organisation.

**3. Introduction of the public benefit activities**

**3.1. Name of public benefit activity:**

rehabilitation, family help

**3.2. Law relating to public benefit activity:**

1997. évi CLVI. Tv.

social work, family help, children- and youth protection, children and youth representation

**3.3. Target audience of public benefit activities:**

children between age 3-18 with a life-threatening disease who undergoing medical treatment

**3.4. Headcount of financially underprivileged benefitting from these**

287

**3.5. Results of the public benefit activities:**

In 2013 we fulfilled 287 wishes. The children were from all counties of Hungary. We celebrated the 10th anniversary of Csodalámpa and the fulfillment of the 2000th wish. During this 10th anniversary meeting, the achievements were presented and supporters thanked. With the ongoing support of a book-dealer supporter, we continued to operate our Csodalámpa Book corners, in this way giving little children in hospitals an alternative to watching TV. We continued our "school" projects: students from the Eötvös József High School regularly took part in the a.m. fundraising events organized by AISB, and students from the Budapest Thomas Mann School organized a 'charity cake-sale' event in support of the Csodalámpa children.

<b>Introduction of the usage of support:</b>			
<p>Nineteen wishes were granted through the support of FGSZ Földgázz szállító Kft. If you inspect the type of wishes granted you can see that "to get something" is still the most popular but "to do something" became more popular over the last year. This is explained by the number of wishes involving an "experience" such as diving in the sea, visiting a One-Direction concert, getting a driving license or watching a football match in Manchester. It is still a big hit, especially among girls, to travel to Disneyland where they can get the experience of a lifetime, and someone wanted to see the monuments of London. Among the material wishes you can find garden playground, LCD television, Razer headset ,etc.</p> <p>The most popular wishes, especially among girls, included a trip to Disneyland, which offers children an unforgettable experience in the company of Mickey Mouse and friends; another wish was a sightseeing tour of London.</p>

<b>Introduction of the usage of support:</b>			
<p>According to the law relevant for the 1%, support was spent (10.766.510 HUF) on the core activities (fulfillment of wishes) and three employees were paid from this support. From this amount we bought electronics, entertainment and computing devices, games. Furthermore, we organized meetings with famous people whom the children wanted to meet, and we financed events as well.</p>			
<b>Introduction of the main activities and programs conducted in the business year.</b>			
<p>From 2003 til 2013.12.31 we managed to fulfill 2224 wishes, including 287 in 2013. If you inspect the type of wishes granted you can see that "to get something" was still popular, but children could also meet famous people or visit a foreign country. With the ongoing support of Libri Konyvkeresedelmi Kft, we continued to operate our Csodalampa-Libri Book corners. In the meantime, with their support, we were able to replace worn books with new ones. In line with our strategy, we further expanded the student youth participation in Csodalámpa's activity: as a regular event we must mention the 8th „Walk the Wish” - a sponsored walk - organised by the AISB (American International School of Budapest) and Budapest Thomas Mann School organized a similar event. From the donations wishes will be granted – chosen and then fulfilled with the participation of the students of the school.</p>

## CSODALAMPA – PUBLIC BENEFIT STATEMENT AND ANNUAL REPORT

on the activities of the **CSODALAMPA Wish Granting Foundation** in the year 2013 based upon law 2011.CLXXV. 28.§.

### Introduction

The CSODALAMPA (Magic Lamp) Foundation was founded in 2003, with the first ever wish being granted in November of that year.

The mission of the Foundation is to grant one wish to any child, aged between 3 and 18, who suffers from a life-threatening illness.

Csodalampa was created in the belief that a sudden positive experience, such as granting an 'impossible' wish, can give strength to win the battle against the illness, and can break up the sometimes yearlong bitter routine of painful treatments for children and their parents alike.

Today, with over 2,300 wishes granted, that belief has certainly been endorsed, as doctors, parents and children confirm every day.

Shortly after the establishment of the Foundation, we decided as a long term goal to build Csodalampa into a recognized 'brand'. It appears that we are heading in the right direction: in 2012 we were honoured for our work with the Superbrands Special Award and in early 2013 we also received a Special Award 'For The Children' by MagyarBrands.

We hope that with your continuing support we will be able bring happiness to ever more children over the following years.

There is just one thing that would make us happier: if we could close down the Foundation due to a complete absence of seriously ill children. That is the Foundation's ultimate wish.....

Budapest, May 23 2014

Sandor Petri

Chairman of the Board

Gabor Patzauer

Founder, President

## 1. ACTIVITIES OF THE FOUNDATION IN THE YEAR 2013

Under court order number 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest accepts under the provisions of law CLXXV of 2011 the revision to the articles of incorporation and recognizes Csodalampa Foundation as a public benefit organization.

### 1.1 Target group and achievements of the Foundation

The Foundation grants wishes to children aged between 3 and 18 years of age who suffer from a life-threatening illness. The wish may be requested by the child's parents or guardian, treating physician, a Csodalampa volunteer or may be directly requested by the child.

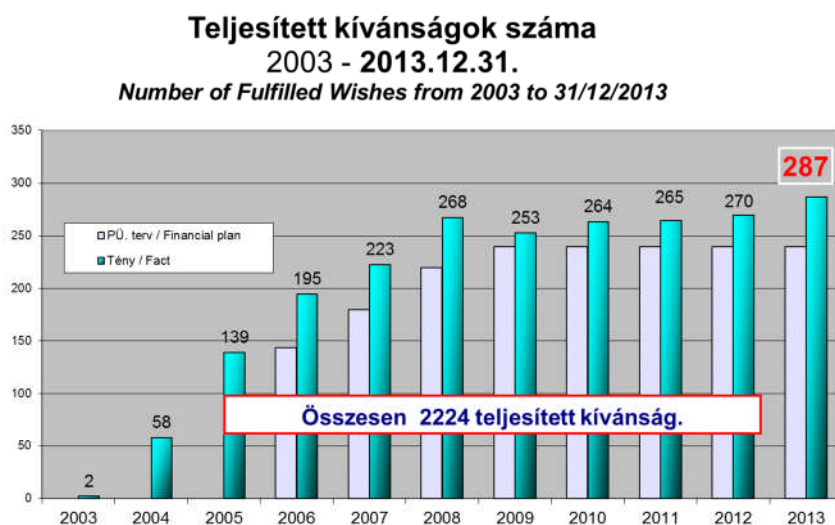

Every sick child may have one wish, something that is dearest to his or her heart.

Csodalampa does not offer a pre-set 'wish-menu.' Instead, we always try to ascertain exactly what the child truly desires and then fulfill that wish with the help of our sponsors and volunteers.

The sole mission of Csodalampa is to fulfill wishes: the joy caused by granting a wish has a psychologically rehabilitative effect on the children and their parents.

In order for a wish request to be registered and accepted by Csodalampa, the child must fall into the required age group and the illness must be qualified as life-threatening by his or her treating physician. A further requirement before granting a wish is obtaining permission from the guardian and physician: this is needed in the context of certain wish fulfillments, where, for example, fitness to travel or to be part of a crowd at a rock concert or soccer match needs to be assessed and to ensure required facilities are provided, such as having an ambulance or doctor present.

The scope of illnesses that bring children under the mandate of Csodalampa is unfortunately very wide and there is no definitive list of illnesses that determines which child may benefit from Csodalampa Foundation's wish fulfillment mission. We make our decisions on accepting wishes based on the recommendations of medical experts.

To our knowledge, at any one time, there are approximately 5,000 children in Hungary who are eligible to be granted a wish by Csodalampa.

## 1.2 Types of granted wishes and their geographical distribution

### 1.2.1 Types of granted wishes

As in previous years, 2013 was dominated by wishes relating to ‘objects.’ Topping the list were toys (representing 75 wishes) and personal computing devices (representing 99 wishes) – where used, refurbished laptops were provided by our sponsors.\*

Laptops are not only used for fun and games, but for studying and keeping in touch with the school, friends and family.

### A 2013. évben teljesített kívánságok megoszlása típusonként

Number of Fulfilled Wishes during 2013 by type

Among the ‘Meeting Somebody’ category of wishes, we are especially grateful to actress Judit Hernadi, rap star Tomi Fluor, as well as the AUDI-ETO women’s handball team from Győr and footballer Szabolcs Huszti for their kindness. Csodalampa also successfully arranged a trip to London for 15 year old Nora to see ‘One Direction’ in concert.

The ‘Go Somewhere’ category of wishes included an interesting wish to visit the Mercedes Ingolstadt factory, the realization of which was assisted by members of the Deutsche Wirtschafts Klub Budapest.

A first for Csodalampa was granting Csaba his wish to travel to Rovaniemi in Finland, where among many other night adventures, he met the ‘real’ Santa Claus thanks to the help of the Hungarian Finnish Society and the Finnish Embassy.

In the ‘Do Something’ category of wishes, among the most unique was that of Matyas: thanks to the Hungarian army, his dream to drive military trucks and combat vehicles off-road whilst in uniform became a reality.

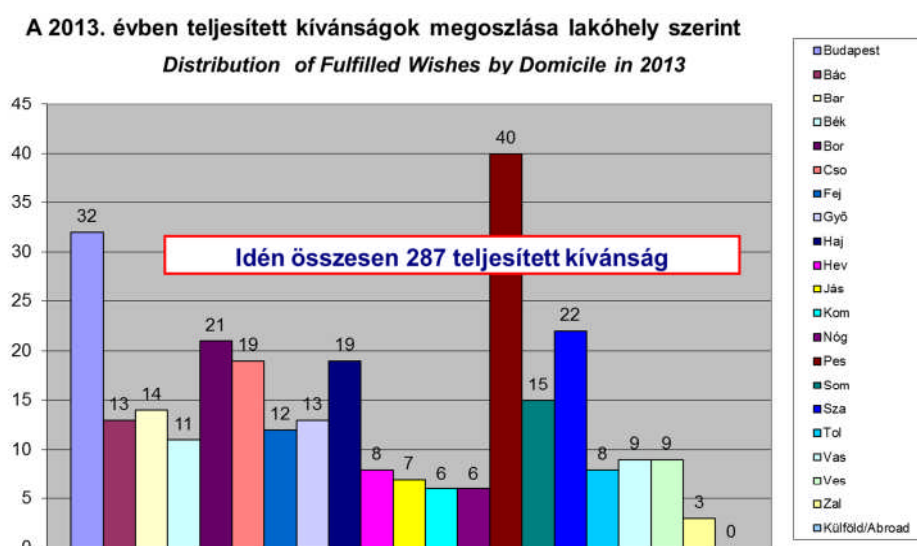

\* The high demand for computers can be explained by the fact that Csodalampa children spend very long periods of time in hospital, often far from their homes, families and friends. Depending on their treatment, they may spend months in sterile rooms, cut off from the outside world.

Among the fulfilled wishes were again visits to Eurodisney, Legoland, Paris and London as well as stroking dolphins at a dolphinarium in Italy and watching soccer matches at the home stadiums of Manchester City, Real Madrid and Barcelona. Within Hungary, the list of wishes continued to feature visits to the zoo, going on vacation, attending a Formula One race, and receiving various toys of all shapes and sizes as well as sports equipment and musical instruments.

Appendix 3 lists the wishes granted in 2013.

### 1.2.2 Geographical distribution of granted wishes

The 287 wishes were granted, as in previous years, to children living in Budapest and from every region of Hungary. Although previously Csodalampa granted wishes to foreign children receiving treatment in Hungary, no such wishes were fulfilled in 2013.

**Distribution of wishes fulfilled during 2013 by county**

### 1.3 Other activities

#### 1.3.1 Book corners, 'tale-telling' afternoons

With the ongoing support of Libri Konyvkeresedelmi Kft, we continued to operate our Csodalampa-Libri Book corners in several Budapest and regional children's hospitals. In the meantime, with their support, we were able to replace worn books with new ones. Nationwide in 14 hospitals over 11,000 books are available for children in-patients.

Based on feedback from hospital staff, our goal of providing hospitalized children with quality entertainment besides watching TV has been fully accomplished. The book corners have proven to be equally popular amongst children and their parents.

With the help of Libri Kft. and our patrons, Peter Rudolf and Eszter Nagy-Kálóczy and their actor colleagues we organize “Csodalámpa tale telling afternoons” in pediatric

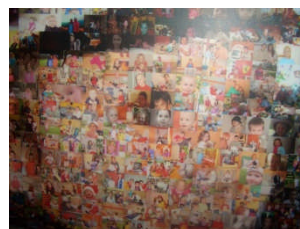

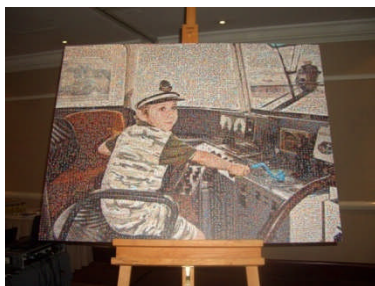

clinics in Budapest, Debrecen, Szombathely and Pécs. These successful events are coordinated by our volunteers, the bright smiles on the face of the children and their parents prove that we give them strengths and they feel that they are important to us. we publish reports regularly of these occasions on our Facebook site: [www.facebook.com/csodalampa](http://www.facebook.com/csodalampa)

### 1.3.2 Events

As a regular event we must mention the 7th „Walk the Wish” - a sponsored walk - organised by the AISB (American International School of Budapest). This year almost 800 students – practically the whole school - their teachers and parents walked 5 km-s for the benefit of Csodalámpa children. From the donations wishes will be granted – chosen and then fulfilled with the participation of the students of the school.

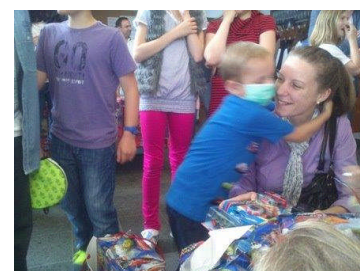

In spring 2013, thanks to the support of the Corinthia Hotel in Budapest, we were able to celebrate in style the 10 years of achievements of the Foundation with our sponsors and supporters. During this 10th anniversary meeting, the achievements were presented and supporters thanked, accompanied by a stirring performance of songs from singer-songwriter and Csodalámpa supporter Vera Jonas. Following this, the American International School of Budapest (AISB) was presented with a mosaic art-work comprising some 2,500 photos christened: ‘Faces of the Future,’ in recognition of the school’s long-standing support to Csodalámpa.

In previous years, students from the Eötvös József High School regularly took part in the a.m. fundraising events organized by AISB. The events appealed so much to the Eötvös József pupils and school management that in September 2013, the school held its very own fundraising walk on Margit Island. Close to 300 young people took part, with other secondary school students invited, and a wish was fulfilled while the students applauded. This 'Walk for the Wishes of ill children' programme also continues in autumn of 2014.

On several occasions during spring 2013, the students of the Budapest Thomas Mann School organized a 'charity cake-sale' event in support of the Csodalampa children. On May 10 2013, the school arranged its own 'Wunschschritte' ('Walk the Wish') event between Normafa and the chairlift and fulfilled a wish there and then: presenting 4 year old Eszter with a baby kitchen. In June, students, parents and teachers met with two ill children during the school's Sommerfest (Summer Festival) programme, where both Botond (picture) and Patrick had their dreams come true.

On December 11 2013, the tenth Santa Claus run was held in support of Csodalampa, whereby several somewhat under-dressed Santa Clauses ran around Budapest's inner-city streets watched by shivering and shocked by-passers....

### 1.3.3 Other Civil Activities

During the year, Csodalampa took part in the AmCham's non-profit organisations working group, aimed at producing a 'position paper' outlining an international 'best practice' guide to optimize the co-operation between the political, economic and civil spheres, improving the efficiency and sustainability of NGOs and on better meeting donor's expectations (including professionalization and transparency).

## 1.4 Honours

In recognition of our work, Csodalampa was presented with a special award by MagyarBrands 'For the Children' at the Opera Ball in spring 2013.

## 2. Our Volunteers

In accordance with the law LXXXVIII of 2005, the Foundation is registered as a volunteer-receiving organization.

At the time of writing, the number of registered volunteers numbers 132. Naturally, in addition to these volunteers, several dozen helpers assist with granting wishes on a case-by-case basis.

These groups are organized into geographical zones representing areas covered by major children's hospitals and are led by more experienced volunteers. Our volunteers come from all walks of life: there are medical professionals and teachers, retirees and CEOs of large international companies, to name just a few.

These experienced co-coordinators also play a lead role in training new volunteers on how to communicate appropriately with sick children, their parents and medical staff.

### Major roles and responsibilities of our volunteers

These include: establishing the 'real' wish of the child; liaising with the children, their parents, the medical staff and local sponsors; and organizing and documenting wish-fulfillments. Several of our volunteers also provide administrative assistance in our

Budapest head office (paperwork, translation of documents), or on occasion represent the Foundation at local events.

Every year we arrange a national volunteer conference, where experiences and best practices are shared and training is held.

In 2013, the national volunteer conference was unavoidably delayed until autumn on account of severe flooding. Despite nature throwing her worst at us on that autumn day with cold temperatures and repeated showers, the weather did not dampen the spirits of our supporters who continued to celebrate the 10<sup>th</sup> anniversary of Csodalampa in the shelter of our tents on Margit Island.

The Csodalampa Foundation has signed contracts with several high schools, whereby their students may undertake voluntary work for Csodalampa under the provisions relating to school social service activities. The students provide significant assistance in organizing the above-mentioned events and many help in managing our website.

Our goal is to further develop the stability of our volunteer network, and to gradually expand its nationwide coverage.

### **3. Operating conditions, financial situation, 1% campaign**

Csodalampa continues to operate with one part-time and two full-time employees. Without the ongoing and regular assistance of several volunteers, however, the office would not be able to function. Bookkeeping, PR-marketing activities are outsourced.

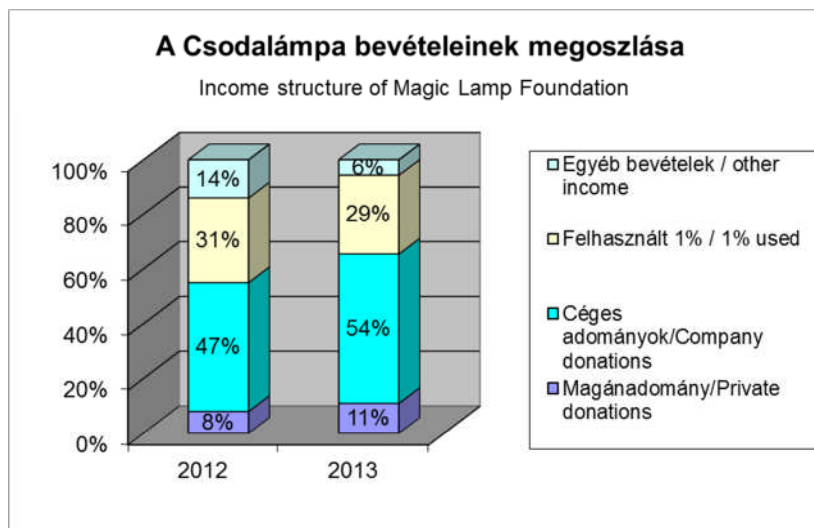

Changes in personal income tax law in 2012 resulted in a dramatic drop in the Foundation's 1% income (introduction of personal flat rate income tax, tax allowances for larger families etc.) In 2013, the Foundation received HUF 13.5 million through the 1%- tax provision, an increase of HUF 1 million over the previous year. Despite prudent management and maintaining cost-efficient measures, the Foundation's capital decreased further in 2013, primarily due to increased costs associated with fulfilling an increased number of wishes.

In 2013, the number of people who donated their 1% of income tax to Csodalampa remained essentially the same as it has for several years: between 2,500-2,700.

In response to this situation, during the course of 2013, under the management of one of our volunteers, an intensive campaign was started via our [www.facebook.com/csodalampa](http://www.facebook.com/csodalampa) web page. Its aim is to make Csodalampa and its activities known more widely and to build up a wider, stable base upon which the Foundation can build and ultimately through that increase the number of people contributing 1% of their income tax to Csodalampa.

Through this campaign, the number of 'likes' registered as regards Csodalampa increased from 3000 in 2012 to 20,000 by the end of 2013. The campaign will continue

throughout the 2014 income tax declaration period aiming to increase the number of people earmarking their 1% tax donation to Csodalampa. The impact of the campaign will only be known in the last quarter of 2014, but we are hopeful that it will bring favorable results.

**The Foundation's financial situation remains stable due to continued prudent management.**

The average total cost of fulfilling a wish in 2013 was HUF 209,000 (approximately HUF 30,000 less than the previous year due mainly to a major donation of used laptops). In 2013 a total of HUF 40.4 million was spent directly on fulfilling wishes (2013: HUF 35.4 million), while the total operating costs amounted to HUF 59.9 million (down by HUF 5 million from the previous year).

These costs cannot reflect the real market value of the wish fulfillments. In 2013, Csodalampa received the equivalent of HUF 8,069,400 through discounts and free services – a significant figure that represents the level of goodwill generated towards the Csodalampa Foundation entering its second decade.

#### 4. Media coverage in 2013

In 2012, Csodalampa featured in numerous media, most typically in reports relating to specific wish fulfillments. Appendix 2 lists the instances of media coverage.

Thanks to our volunteers versed in social media, the Foundation managed to significantly increase its profile and coverage in Facebook. In addition to the 1% campaign, several times a week we publish latest news, fulfilled wishes, and through the

Non Profit Information and Training Centre Foundation (NIOK) 'Adhat' ('Donate') telephone line, we can obtain donations to realize specific wishes. Exceeding 20,000 'likes' by the year end vindicates the success of the current campaign.

The intensive coverage will continue through 2014.

Budapest, May 23 2014

Sandor Petri  
Chairman of the Board

### ***Excerpt from the Deed of Foundation of Csodalámpa Foundation:***

“

#### **3. THE PURPOSE OF THE FOUNDATION**

3.1. The purpose of non-profit activity in the public interest

**3.1.1. The purpose of the Foundation is to fulfil one-one wish of such children between age 3 and 18 who are suffering in life threatening illnesses and are under permanent medical care due to this, and whose families are unable to fulfil the wishes due to lack of financial funds or the type of the respective wish.**

The purpose of the Foundation is to make the life of a child with a serious permanent illness more pleasant and temporarily more carefree, therefore to strengthen the hope and belief in curing of the child and his/her family and to give strength and mental support to bear the illness and the treatments. If the child requires and it is feasible due to the resources of the Foundation, the Foundation keeps in touch with the child after the fulfilment of the wish or the rehabilitation in order to further strengthen the curing and the entire rehabilitation process.

3.1.2. Pursuant to section (1) 34 of Act CLXXV of 2011 on right of association, on charitable organisations and on operation and support of civil organisations, the Foundation performs the following non-profit activities for public interest without aim of gaining profit: it carries out curing and medical rehabilitation services in connection with public health care activity through the fulfilling of wishes in accordance with section (1)-(2) 35 of Act CLIV of 1997 on health services. The public health service tasks are statutorily carried out by state and municipal bodies; therefore the activity of the Foundation qualifies as an activity performed in the public interest.
