

CSODALÁMPA – PUBLIC BENEFIT STATEMENT AND ANNUAL REPORT
on the activities of the CSODALÁMPA Wish Granting Foundation
in the year 2021 based upon law 2011 CLXXV §28

Introduction

The CSODALÁMPA (Magic Lamp) Foundation has been granting one wish to any child, aged between 3 and 18, who suffers from a life-threatening illness, since 2003. By the end of 2021, we managed to fulfil 4319 dreams, which means that during 2021, we granted as many as

305

new wishes. This represents an absolute record in the history of the Foundation. Although our priority is quality and not quantity, as every child can have only one wish, we would like to take this opportunity to thank, on behalf of the sick children, our volunteers, supporters and sponsors that we could, together, make these many children happy.

As far as 2021 is concerned, COVID restrictions continued to hinder our work. Given the ban on visits in children's hospitals, our CSODALÁMPA doctors, nurses, physiotherapists, psychologists, hospital pedagogues talked to the children and reported to us about their wishes. Despite the tremendous burden of their daily professional work, these devoted colleagues helped us and the children, handed over the desired gifts to the sick children and even documented these events. Furthermore, they supported us in the introduction and implementation of the "Healing with Magic" program in the daily work of about a dozen children's clinics by the end of the year.

Doctors, parents, and children who have benefitted from CSODALÁMPA, as well as over 4000 testimonials with photos, posted on our website confirm that an unexpected positive experience, the fulfilment of a wish that has often seemed unachievable or impossible, provides strength and helps to overcome the illness and deal with the often-painful treatments.

We hope that the pandemic and its consequences will pass soon, and that life will return to normal again. We trust that with your support and the support of your friends and colleagues, we will be able to bring joy and further unforgettable experiences to ever more children over the coming years, also supporting the healing work of doctors.

1. ACTIVITIES OF THE FOUNDATION IN 2021

Under court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognized CSODALÁMPA Foundation as a public benefit organization, the conditions of which we have continued to fulfil.

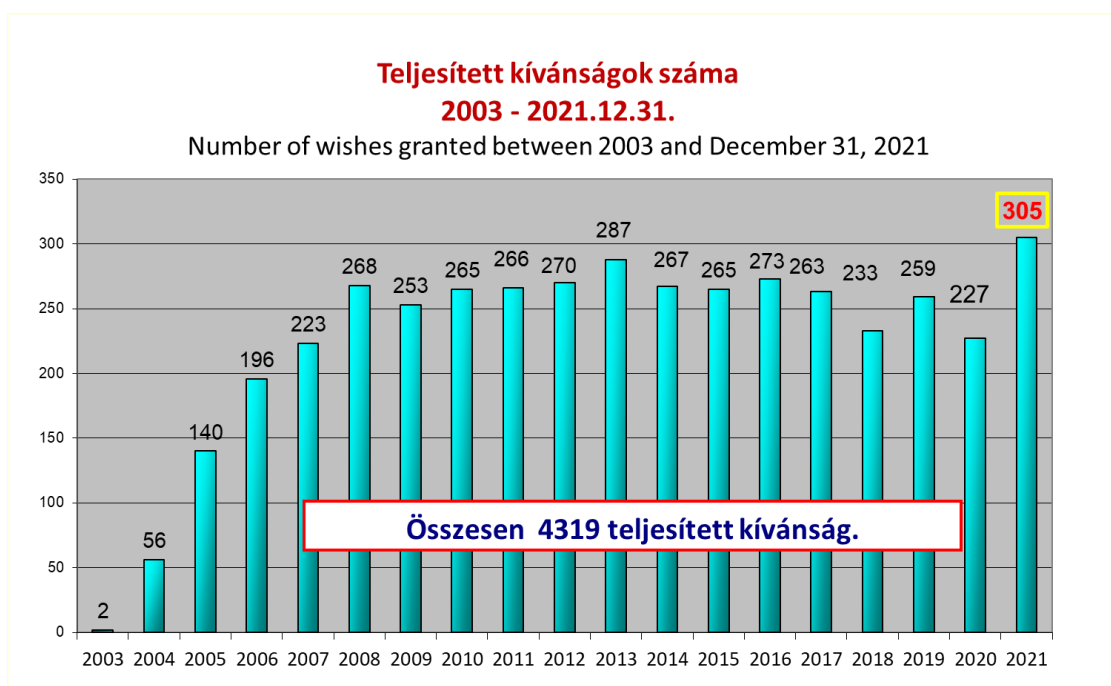

1.1 Target group and achievements

The Foundation grants wishes to children aged between 3 and 18 years who suffer from life-threatening illnesses.

The wish may be requested by the child's parents or guardian, treating physician, a CSODALÁMPA volunteer or directly by the child. Except for those with relapsing disorders or having more than one life-threatening illness, each sick child may have one wish, something that is dearest to his or her heart.

CSODALÁMPA does not offer a pre-set 'menu' of wishes. Instead, we always try to ascertain exactly what the child truly desires and then fulfil that wish with the help of our sponsors and country-wide network of volunteers.

The mission of CSODALÁMPA is to fulfil wishes: the joy caused by granting a wish has a psychologically rehabilitative effect on the children and their families.

The following conditions must be met for a wish to be registered:

- The child must be aged between 3 and 18 years at the time of registering the wish
- A physician must certify the nature of the illness and must give consent to the wish being granted
- The guardian must also consent to the wish being granted

The physician's consent is essential due to the circumstances of the granting of a wish (for example, fitness to travel or to be part of a crowd at a rock concert or soccer match or need for the presence of an ambulance or a doctor when the wish is fulfilled, etc.).

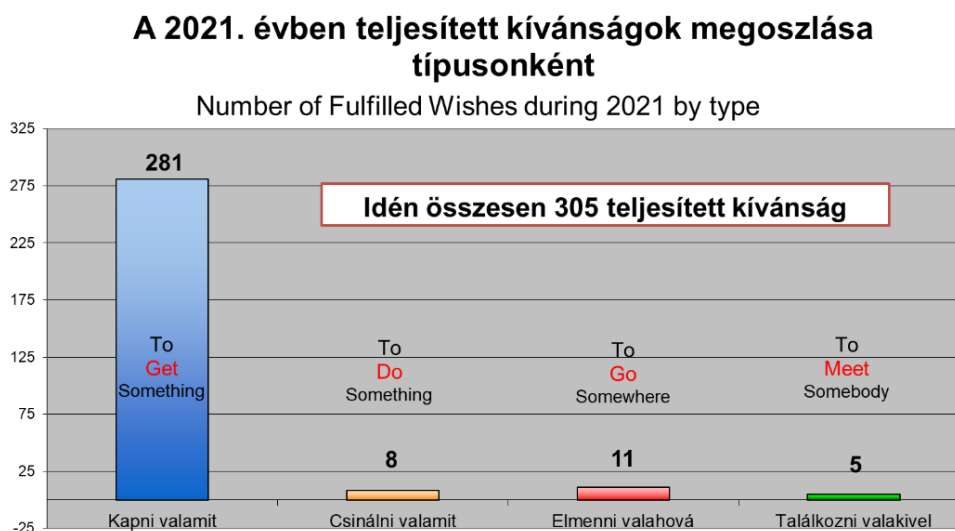

The range of illnesses that bring children under the mandate of CSODALÁMPA is unfortunately very wide – hundreds have been identified - and there is no definitive list of illnesses that determines which child may benefit from CSODALÁMPA Foundation's wish fulfilment mission. We base our decisions on accepting wishes on the recommendations of our doctor volunteers and the treating physicians.

To our knowledge, at any one time, thousands of children in Hungary are eligible to be granted a wish by CSODALÁMPA.

1.2 Types of wishes granted and their geographical distribution

1.2.1 Types of wishes granted

In 2021, certain COVID-related restrictions remained, thus we could not fulfill particular wishes, especially we were practically unable to organize foreign travel or meetings with famous people, requested by the children.

Given the circumstances and compared to the pre-pandemic situation, the wishes were dominated by “getting something”. About 92% of wishes were for “objects” (toys, mobile phones, swing sets, TV sets, computing devices, etc.). Of the 305 wishes fulfilled in 2021, there were 100 laptops or tablets, 40 mobile phones, 44 indoor or outdoor toys, for example children's cars or outdoor playgrounds to alleviate the impact of the lockdown .¹

¹ The strong demand for computers and mobile phones is justified by the fact that the children spend long periods of time in hospital, often quite far away from their homes, families, and friends. Depending on their treatment, they may have to spend weeks in sterile circumstances, even more isolated from their environment. **They are all private students; their continuous education is greatly facilitated by these devices.**

There were several interesting wishes in 2021 as well. For example, 9-year-old Marcell, who suffers from muscular dystrophy, received a go-cart that was modified for manual operation to meet his needs. Others wanted digital microscopes, fishing tents or drum sets. Fourteen-year-old Máté, who goes to training between treatments (!), could meet with dr. Sándor Csányi, the Chairman of the Hungarian Football Association, who was rather surprised by the request. Twelve-year-old Máté was hosted by the band, “Halott Pénz” in their rehearsal studio, while 3-year-old Ákos could meet with World Champion, Norbert Michelisz in Mogyoród during the break of a car race. Miklós H. Vecsei, a renowned actor, spent time talking with 13-year-old

Laura—to our greatest pleasure, children are super imaginative when thinking about their wishes.

Dalma’s request was particularly exciting. Dalma, who has been forced into a wheelchair, asked for a para-kayak to enable her to compete. We managed to fulfill her wish together with the Hungarian Canoe Federation after lots of problem-solving and adventures, in November 2021.

Although generally our objective is to avoid the fulfilment of wishes in hospitals, given the restrictions of personal interactions during the pandemic, we delivered the smaller objects to hospitals where our hospital volunteers handed them over to the children, after sanitization. Naturally, we delivered the larger objects and garden toys to the children’s homes.

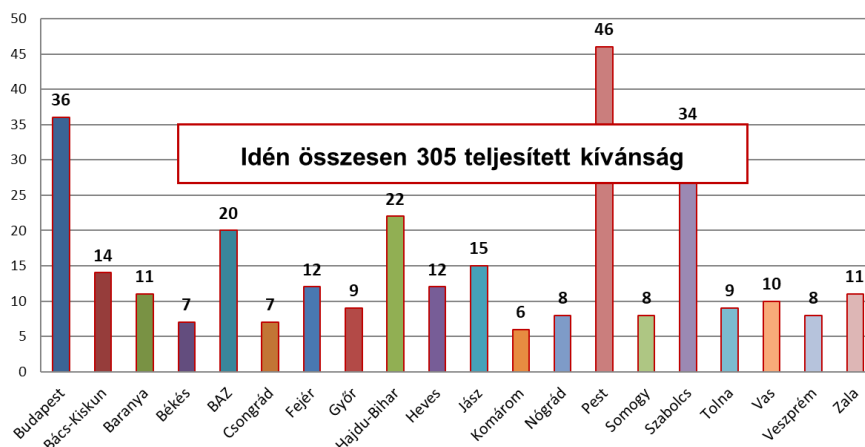

We need to mention the travel-related wishes received preceding the lockdown. Given the country-specific and often changing travel rules, we could not risk organizing trips in 2021 either. Notwithstanding the possibility of change, most children stayed with their original wishes and opted to wait for the restarting of travel. We will try to make them happen in 2022. Dozens of such wishes await implementation.

The list of wishes, fulfilled in 2021, is included in Appendix 3.

1.2.2 Geographical distribution of granted wishes

The 305 wishes were received from and granted in every county of Hungary and Budapest, as in previous years. Last year, none of the CSODALÁMPA children had their main place of residence abroad, while being treated in Hungary.

A 2021. évben teljesített kívánságok megoszlása lakóhely szerint (db)

Geographical distribution of granted wishes (2021)

The distribution shown above significantly depends on the location of the clinics where the children are treated and the possibilities of our volunteers.

1.3 Other activities

1.3.1 Events and appearances

In February 2021, the Budapest Orchestra held a charity concert for our Foundation on their YouTube channel.

With the improvement of the quarantine situation, in the Fall, we again organized events for students.

The 11. "Walk for sick children", organized by the József Eötvös high school, took place on Margitsziget, where several other high schools from Budapest also participated. After Eötvös, Európa2000 had the largest number of students joining the event. The students from the Károly Gundel School for Catering and Tourism contributed to the success of the event with hundreds of pancakes.

The 15. "Walk-the-Wish", organized by the American International School of Budapest was held again in the woods next to the school but because of COVID, it started from the sport field and not from the gym hall.

Both events were successful from the point of view of fundraising, team building and sensitization.

In September, with the help of our charity ambassadors, we organized our first business breakfast, „Csodalámpa – About Business, differently”, whose topic was the current state and prospects of the car industry. At the roundtable, leaders from LeasePlan, Pappas, Porsche Hungária and Stellantis shared their views about these topics and answered questions. According to its participants, this well-attended event, was very interesting and they are waiting for its planned continuation.

Although this does not belong to the scope of activities of our Foundation, we are always ready to participate in a worthwhile initiative: in November 2021, in the framework of the “Life-tree planting program”, we planted 4300 trees with the help of a supporter and colleagues in the XVI. District in Budapest. This area was named “Csodalámpa Saplings Grove for Happy Children”. We wanted to demonstrate that we think long term, and that we are faithful to our slogan: “Pass it on that life goes on”, in other words, to impress upon the sick children that they keep getting better and become healthy adults. We hope that those who live in the neighborhood will, in a few years, enjoy the good quality of air and the shade, given by the trees.

The last event of 2021 was the result of an exam requirement by the Corvinus University: its students had to organize a fundraising event. This led to a charity exhibition in the Deák Palace in Fashion Street that attracted lots of guests.

1.3.2 Other civil activities

Magic Bugs:

With the loosening of COVID restrictions, our “Magic Bugs” movement also started to resume its activities. In 2021, 13 fundraising events were held, thus new “Magic Bugs” could be placed on our “Magic Bugs” maps www.csodabogarak.com.

One of the most spectacular “Magic Bugs” fundraising events was the Ultrabalaton run by Rohan6: Márk, because of his sickness, could follow his parents on bike tours only with great difficulty, therefore he asked for an electric quad that is also suitable for difficult terrains.

Among the “Magic Bugs” events, naturally there were also fundraising initiatives for birthdays, and several companies started activities for their staff, in part to support the operations of the Foundation and in part to grant particular wishes.

“Healing with Magic”

We worked on this program from the beginning of 2020. It is based on David Copperfield’s “Project Magic” rehabilitation program but adapted to the conditions of the Hungarian children’s clinics. Botond Kelle, magician, has provided professional leadership for its continuous implementation in children’s clinics.

“Healing with Magic”, through simple and more complex magic tricks, contributes to the physical and mental rehabilitation of children. Mr. Copperfield supported the introduction and implementation of our program by providing permission to the use of his collection of magic tricks and the translation of the “Project Magic” book. The tricks used in the program improve the physical and mental capabilities of children, reduce the treatment-induced stress and even motivate them to implement the sometimes painful physio-therapeutical exercises, for example by teaching a new trick as a reward.

The program was initially launched in the MRE Bethesda children’s hospital and GOKVI’s cardiovascular center for children. Since then, just in Budapest, it has been introduced in the Semmelweis University’s II. Children’s Clinic (Tűzoltó street), the Buda Children’s Hospital, the Pál Heim hospital and in the Déméter House, while the program is also applied daily in several large children’s clinics in the countryside, including, for example, Pécs, Veszprém and Szombathely.

Our volunteer magicians teach the tricks to hospital staff (doctors, psychologists, therapists, and nurses) who in turn teach the same to children during their treatments.

However, the volunteer magicians also taught the tricks directly to children every week. They could do so only online as the ban on hospital visits remained in place practically throughout the year.

The props and the description of tricks are provided to participants free of charge by Csodalámpa, using the contributions of our sponsors

We hope that during 2022, our volunteer magicians will be able to teach hospital staff and the children again in person.

2. Our volunteers- the national wish-fulfilling network

In accordance with Law LXXXVIII of 2005, our Foundation is registered as a volunteer involving organization.

In 2021, we had 195 contracted volunteers across the country. This represents a significant increase from 145 in 2020, due to the engagement of doctors, psychologists, physiotherapists, and nurses in the “Healing with Magic program”, as volunteers.

In addition, dozens of volunteers assist us in granting wishes, and some, mostly retirees, help occasionally in the work of the office.

The “traditional activities” of our volunteers--such as talking to children, inquiring about their wishes, reporting them to the foundation and the actual granting of wishes—would not have been possible without our hospital volunteers. They deserve every praise, as they spared no time and effort for the children, despite their complex professional responsibilities.

Only this way, with their devotion, the commitment of our colleagues and sponsors, could we achieve the fulfillment of 305 wishes in 2021!

In the Spring of 2021, unfortunately, we could not hold our regular annual meeting with our volunteers, due to the pandemic. With the improvement of the situation, the managing director of the Foundation along with her colleagues visited the children’s clinics across the country and met with the regional volunteer groups.

During these visits, they met with the treating physicians of the “Csodalámpa children” and thanked them for their enormous help. They also reported on the activities and results of Csodalámpa, presented the “Healing with Magic” program, and the participants could even familiarize themselves with a few magic tricks.

As a result of these visits, we were able to conclude cooperation agreements with several hospitals in the countryside for the introduction of the “Healing with Magic” program, and the program has started in several venues with the involvement of local amateur magicians. Furthermore, since these visits, children’s wishes have been reported from hospitals that in the past did not participate in Csodalámpa activities,

Major tasks of our volunteers

Our volunteers are in charge of finding out the ‘real’ wish of a child; liaising with the parents, the physicians and the children, as well as the local sponsors; and organizing and documenting the fulfilment of wishes. Several of our volunteers also provide administrative assistance in our Budapest head office (administration, translation of documents, managing the website, etc.), or occasionally represent the Foundation at the events of local sponsors.

Student volunteers: Our Foundation has signed contracts with several high schools, whereby their students may undertake voluntary work for CSODALÁMPA under the provisions relating to social service activities at schools. We hope that in 2022, we will be able to show good examples of volunteer work and solidarity with sick people to our student volunteers.

Ambassadors: Our charity ambassadors are high-profile personalities – company managers, entrepreneurs – who have agreed to our request to act as ambassadors of our Foundation and promote its activities. They support our Foundation through their experience, advice, and contacts.

Our goal is to improve the stability of our country-wide wish-granting network and gradually expand its coverage once the pandemic has come to an end.

3. Operating conditions, financial status, 1% campaign

In 2021, Csodalámpa operated with one full-time and three part-time employees. Accounting, PR and marketing were outsourced.

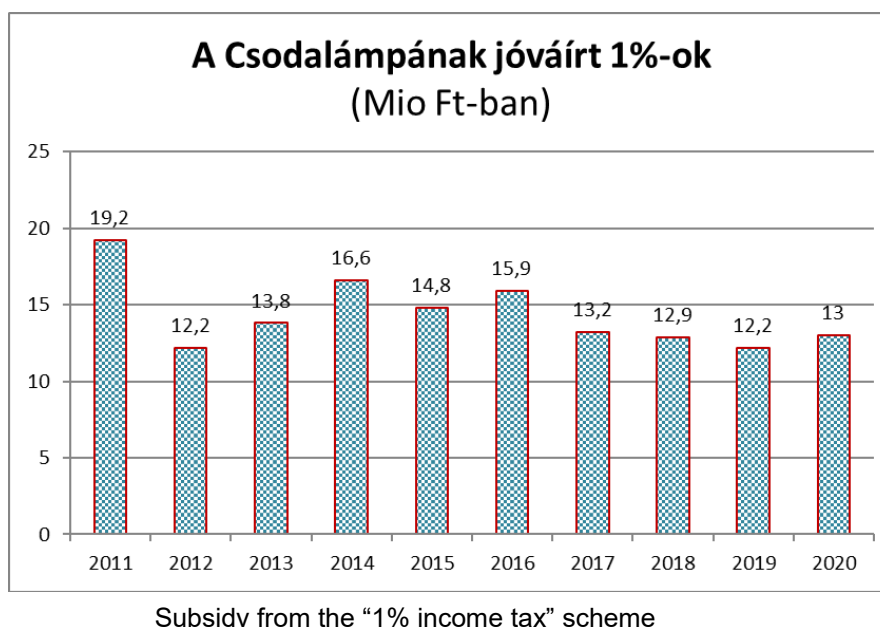

During the year, we spent 9.56% of donations for marketing activities (including the 1% campaign) and events, for fundraising purposes.

As our sponsors recovered from the COVID-related economic shock and because of the postponement of foreign travel of children, the Foundation achieved **an accounting surplus of HUF 4 130 000 in 2021**, (2020=HUF 12 000) that will, naturally, be used for the mission of the Foundation.

The status of 1% contributions

Based on the tax year of 2020, in 2021 we received **Ft 13,001,000 in the form of 1% contributions** which exceeded our cautious plan. Unfortunately, however, the number of contributors did not change much: this time, **1410 taxpayers** chose Csodalámpa (2020=1404 persons).

We thanked in emails or letters all the 265 contributors who gave us their contact details.

In 2021, the Foundation’s balance sheet total was HUF 110.13 million; total revenues amounted to HUF 96.58 million. **The 1% contributions represented 11.8% of the former and 13.5% of the latter (i.e. of total revenues), which is a significant magnitude.**

It is important to note that we did not quantify the value of our volunteer network’s contribution – but suffice it to say that there would be no CSODALÁMPA without them.

The cost of fulfilling a single wish varies between ten thousand-plus Hungarian forints and hundreds of thousands (trip abroad with an accompanying parent and a CSODALÁMPA coordinator).

In 2021, there were practically no foreign trips. In comparison to previous years, children requested a lot more information technology devices whose prices increased significantly due to the weakened exchange rate and higher demand as a result of extensive home office use in 2020-21.

On balance, **in 2021, the average gross cost of the fulfilment of a wish (total cost divided by the number of wishes) amounted to HUF 299,056** (2019: Ft 335,876, 2020: 294,780).

We aim to pursue a prudent investment policy. Due to changed regulations, the Foundation is not allowed to purchase new investment products. Accordingly, we keep our savings mostly in bank deposits or on a current account – which, in light of the current low interest rates, is clearly disadvantageous for us.

4. Media coverage in 2021

In 2021, our supporters launched 13 projects on our “Magic Bugs” website, including 9 in October-December.

With the kind support of Wanadis Kft. Maileon, our partner, we continued to publish a newsletter every one or two months, in which we informed our sponsors, the parents, and our volunteers about the most interesting wishes we grant and the key events we organize.

In 2021, Csodalámpa continued to appear in the media mostly in the context of fulfilled wishes. Our media appearances somewhat increased compared to the previous year, due to a larger number of wishes granted. These appearances reached the public either directly by us or through our partners.

The list of media appearances is in Appendix 2.

Several major media firms also provided dedicated support for CSODALÁMPA's appearances. These included portfolio.hu, port.hu, Sláger Rádió, and Index. Positive by Hinora, the Observer and HVG supported us in our 1% campaign. The requisite media portfolio was the work of Inspirit Kft under its corporate social responsibility strategy. Inspirit has been our supporter from the outset.

Thanks to our volunteers who are well-versed in social media, the Foundation is present on Facebook, albeit with varying degree of intensity. In addition to the 1% campaign mentioned above, we publish updates on our activities and also on the latest wishes fulfilled, on average once a week. CSODALÁMPA has already attracted around 33,000 followers on Facebook.

In 2021, we launched our Instagram presence, but due to capacity constraints, we could not use it with sufficient intensity. In addition to Facebook, we would like to intensify our Instagram presence going forward.

5. Social impact of Csodalámpa in 2021

It is often quite difficult to quantify a project's social impact. In our case, a relevant marker would be the estimated number of people reached through the wishes granted. These include the children themselves, as well as the members of their family, the doctors, the nurses, the medical pedagogues, our volunteers, and the visitors to our Facebook page and website. We arrive at estimated numbers by applying multipliers for each category, as shown in the table below.

The number of "Magic Bugs"—those sportsmen supporting CSODALÁMPA, the organizers of "Magic Bugs" events and contributors—is underestimated since the organizers and participants of such events reach a much larger number of people than shown in the table below in the course of their fundraising efforts, as they widely share information about the events, which included for example a live concert, broadcast on YouTube.

Affected persons/entities	Multiplier	Estimated number/ 2021	Comment/explanation
Csodalámpa children	1	305	Number of wishes granted
Parents, siblings, close relatives	4	1 220	We assume that the number of „missing parents” (single-parent families) is compensated for by the varying number of siblings + grandparents and other relatives
Health professionals	2	610	Realistically, the multiplier may be larger than 2, but each health professional works with more than one child
Volunteers	1	195	Number of active volunteers only
"Magic Bugs"	3,5	700	Charity sportsmen, teams, event organizers, participants, concert audience: 200 persons; multiplied by 3.5 as information is shared with others
Newsletter addressees	0,1	6 000	Our newsletter is sent out 1-2 times per month to 12 x 5,000 addresses per year. 10% of recipients open the newsletter
Number of sponsors in 2021	1	551	Total number of companies and individuals
Internal communication among supporters	30	1 500	Private individuals and corporate employees, 50 persons/event (supporters and participants of corporate and private activities and events)
Followers on Facebook	0,2	6 600	Around one-fifth of our 33,000 followers actually read our news
Visitors to Csodalámpa.hu in 2021	1	42 367	42,602, of which 42,367 were new (Google Analytics)
Total number of people reached:		60 048	

Based on the 305 wishes granted, and using cautious assumptions and estimates, in 2021, once again, CSODALÁMPA's activities impacted the lives of tens of thousands of citizens one way or another.

Under Court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognised CSODALÁMPA Foundation as a public benefit organisation, the conditions of which continued to be met.

Excerpt from the Deed of Foundation of CSODALÁMPA Foundation:

3. THE PURPOSE OF THE FOUNDATION

3.1.1. The purpose of the Foundation is to fulfil one-one wish of such children between age 3 and 18 who are suffering in life threatening illnesses and are under permanent medical care due to this, and whose families are unable to fulfil the wishes due to lack of financial funds or the type of the respective wish.

The purpose of the Foundation is to make the life of a child with a serious permanent illness more pleasant and temporarily more carefree, therefore to strengthen the hope and belief in curing of the child and his/her family and to give strength and mental support to bear the illness and the treatments. If the child requires and it is feasible due to the resources of the Foundation, the Foundation keeps in touch with the child after the fulfilment of the wish or the rehabilitation in order to further strengthen the curing and the entire rehabilitation process.

3.1.2. Pursuant to section (1) 34 of Act CLXXV of 2011 on right of association, on charitable organisations and on operation and support of civil organisations, the Foundation performs the following non-profit activities for public interest without aim of gaining profit: it carries out curing and medical rehabilitation services in connection with public health care activity through the fulfilling of wishes in accordance with section (1)-

(2) 35 of Act CLIV of 1997 on health services. The public health service tasks are statutorily carried out by state and municipal bodies; therefore the activity of the Foundation qualifies as an activity performed in the public interest.
