

CSODALÁMPA – PUBLIC BENEFIT STATEMENT AND ANNUAL REPORT
on the activities of the CSODALÁMPA Wish Granting Foundation
in the year 2022 based upon law 2011 CLXXV §28

Introduction

The CSODALÁMPA (Magic Lamp) Foundation has been granting one wish to any child, aged between 3 and 18, who suffers from a life-threatening illness, since 2003. By the end of 2022, we managed to fulfil 4628 dreams, which means that during 2022, we granted as many as

309

new wishes with the help of our sponsors and volunteers. If we look at the calendar, showing “only” 254 workdays in 2022, this is not a small feat.

In 2022, in addition to fulfilling the wishes of sick children, the “Healing with Magic” program also gathered strong momentum, reaching more than a thousand children. Learning the magic tricks helps the physical and mental rehabilitation of these children, they gain new knowledge, and the cheerful practice of such tricks makes their time in hospital pass faster. This helps not only them greatly but also their treating physicians.

We would like to thank, on behalf of the children benefitting from CSODALÁMPA, our old and new volunteers, supporters and sponsors, the members of our Board and Supervisory Committee that together we could make more and more sick children happy and perhaps contribute a bit to their recovery. The feedback from doctors, parents, and children who have benefitted from CSODALÁMPA, as well as close to 5000 testimonials with photos, posted on our website confirm that an unexpected positive experience, the fulfilment of a wish that has often seemed unachievable, provides strength to overcome the illness and deal with the often-painful treatments.

We trust that with your support and the support of your friends and colleagues, we will be able to bring joy and further unforgettable experiences to ever more children over the coming years, also supporting the healing work of doctors.

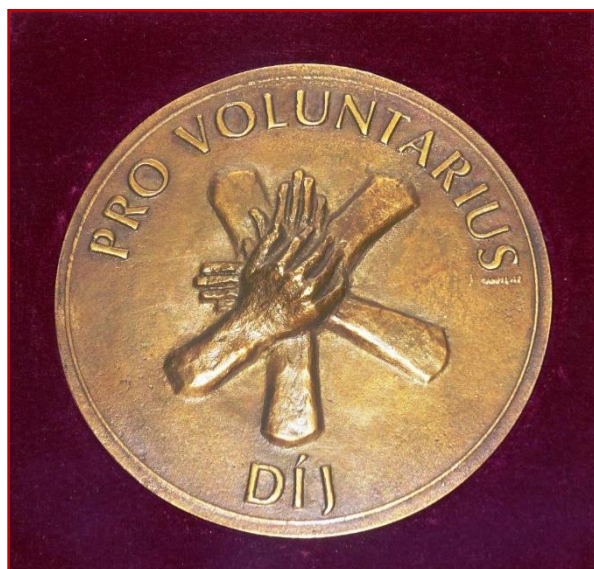

Budapest, May 25, 2023

Gábor Nagymarosy
Chairman of the Board

1. ACTIVITIES OF THE FOUNDATION IN 2022

Under court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognized CSODALÁMPA Foundation as a public benefit organization, the conditions of which we have continued to fulfil.

1.1 Target group and achievements

The Foundation focuses on children aged between 3-18 years who suffer from life-threatening illnesses and receive treatment in Hungary. The objective of the Foundation is to alleviate the mental trauma associated with their treatment and support their recovery.

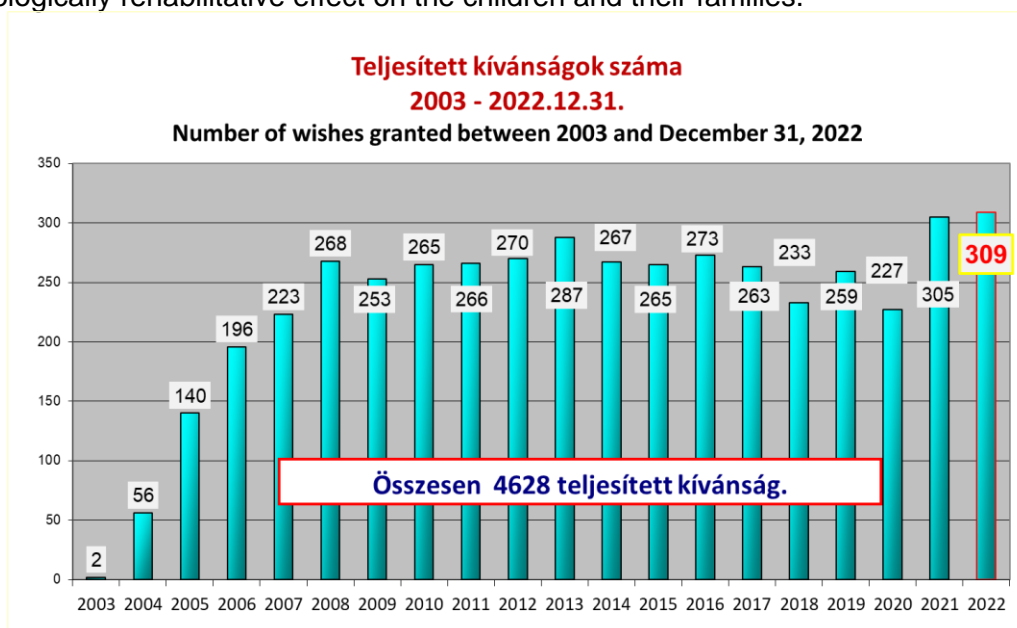

This objective is being pursued by fulfilling the wishes of sick children (normally one wish by each child) and by the playful teaching of magic tricks that divert their attention from the often-painful treatments and support their therapies.

Granting of wishes

An eligible child may be reported to CSODALÁMPA directly by the child, his/her parents or guardian, the treating physician or other medical staff contributing to his/her treatment or a CSODALÁMPA volunteer. Except for those with relapsing disorders or having more than one life-threatening illness, each sick child may have one wish, something that is dearest to his or her heart.

CSODALÁMPA does not offer a pre-set 'menu' of wishes. Instead, we always try to ascertain exactly what the child truly desires and then fulfil that wish with the help of our sponsors and country-wide network of volunteers.

The mission of CSODALÁMPA is to fulfil wishes: the joy caused by granting a wish has a psychologically rehabilitative effect on the children and their families.

The following conditions must be met for a wish to be registered:

- The child must be aged between 3 and 18 years at the time of registering the wish
- A physician must certify the nature of the illness and must give consent to the wish being granted
- The guardian must also consent to the wish being granted

The physician's consent is essential due to the circumstances of the granting of a wish (for example, fitness to travel or to be part of a crowd at a rock concert or soccer match or need for the presence of an ambulance or a doctor when the wish is fulfilled, etc.).

The range of illnesses that bring children under the mandate of CSODALÁMPA is unfortunately very wide – hundreds have been identified - and therefore we do not use a definitive list of illnesses to determine eligibility; instead, we base our decisions on accepting wishes on the recommendations of our doctor volunteers and the treating physicians.

To our knowledge, at any one time, thousands of children in Hungary are eligible to be granted a wish by CSODALÁMPA.

CSODALÁMPA's "Healing with Magic"

"Healing with Magic" is based on David Copperfield's "Project Magic" but adapted to the conditions of the Hungarian children's clinics by Botond Kelle, magician, who has provided professional leadership of the program.

"Healing with Magic", through simple and more complex magic tricks, contributes to the physical and mental rehabilitation of children. The tricks used in the program improve the physical and mental capabilities of children, reduce the treatment-induced stress, and even motivate them to implement the sometimes-painful physio-therapeutical exercises, for example by teaching a new trick as a reward.

By end-2022, The "Healing with Magic" program was used successfully daily in several wards of 15 large children clinics country-wide.

Our volunteer magicians teach the tricks to hospital staff (doctors, psychologists, therapists, and nurses) who in turn teach the same to children during their treatments. The volunteer magicians also teach some of the children directly and provide continuous education to medical staff.

The props and the description of tricks are provided to participants free of charge by CSODALÁMPA, using the contributions of our sponsors. Since the beginning of the program, we have provided several thousand magic boxes to children with the help of participating hospital wards.

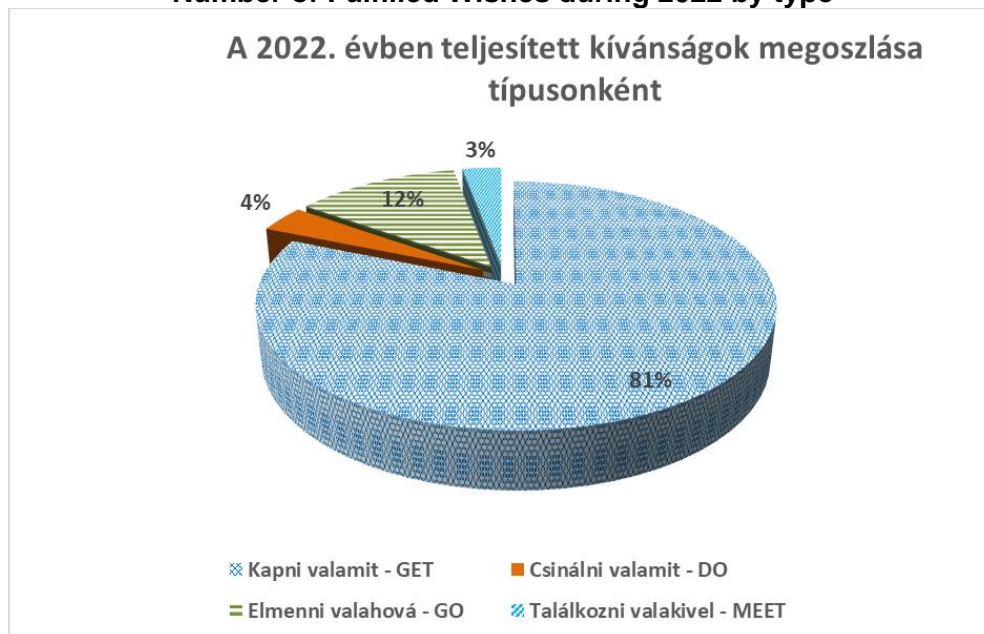

We hope that during 2023, we will be able to introduce this program to more clinics and clinical wards and that our volunteer magicians will be able to continue to teach hospital staff and the sick children directly, contributing to their recovery.

1.2 Types of wishes granted and their geographical distribution

1.2.1 Types of wishes granted

During 2022, the COVID restrictions gradually eased, and as soon as it was possible, we started to grant previously postponed wishes related to travel and meeting famous people.

Number of Fulfilled Wishes during 2022 by type

The share of “getting something” wishes returned to pre-COVID level. Of the 309 wishes, 81% (2021=92%) were for “objects” (toys, mobile phones, swing sets, TV sets, computing devices, etc.), including 77 laptops or tablets, 41 mobile phones, 51 indoor or outdoor toys, for example children’s cars or outdoor playgrounds.

Here are a few examples of the most interesting wishes from 2022: Áron is a big fan of trains and the metro. With the help of BKK (the Budapest transport company), he could visit the vehicle yard of the M2 metro line at Fehér út and check where the ALSTOM metro cars “sleep” at night. He could even start one of them for a brief moment, and later he could sit in the driver’s seat of a fully restored original Russian metro car from 1972!

Anna, who is a “bookworm”, could hold some of the true treasures of the National Széchényi Library, including a 28-kilogram folio and books from the XVI. century. She could even learn about the golden decoration old book covers.

Among others, we also managed to arrange meetings with Paulina, Kovalszky meg a Vega, Valmar Duo and Ákos Kovács. Some of the children also met with influencers, while 17-year-old Bence cooked together with Fördös Zé.

Among the travels, most noteworthy is 17-year-old Ádám's trip to Barcelona. His health condition was precarious, and it was in the last minute that we managed fulfill his wish with extraordinary help of Wizzair. His treating physician and other medical colleagues repeatedly

thanked us for agreeing to undertake this trip upon their request which caused tremendous joy to Ádám and his family. The clinical staff could hardly believe their eyes as they met with a smiling Bence and his mother upon their return, at the clinic.

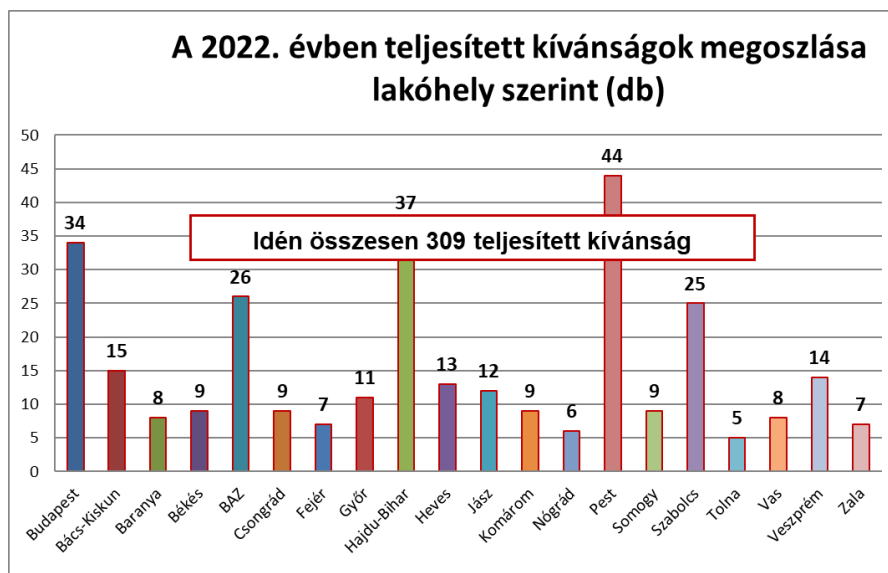

Many other travel adventures could be organized during 2022, from dolphin petting to a weekend at Lake Balaton, from Eurodisney to Kolping Hotel, summer holiday, zoo-visit etc.

The list of wishes fulfilled in 2022, is included in Appendix 3.

1.2.2 Geographical distribution of granted wishes

The 309 wishes were received from and granted in every county of Hungary and Budapest, as in previous years. Last year, none of the CSODALÁMPA children had their main place of residence abroad, while being treated in Hungary.

Geographical distribution of granted wishes (2022)

The distribution shown above significantly depends on the location of the clinics where the children are treated and the possibilities of our volunteers.

1.3 Other activities

1.3.1 Events and appearances

During the autumn of 2022, we, once again, organized our programs for students.

The 12. “Walk for sick children”, organized by the József Eötvös high school, took place on Margitsziget, where several other high schools from Budapest also participated. After Eötvös, Európa2000 had the largest number of students

joining the event where, with the support from students, we fulfilled Natália’s request for a white BMW children’s car so that she can, literally, keep pace with her parents.

The 16. “Walk-the-Wish”, organized by the American International School of Budapest, started from the gym hall again, and took place in the woods next to the school with the participation of several hundred students and parents.

Both events were successful from the point of view of fundraising, team building and sensitization.

The students and teachers of the British International School Budapest and the Deutsche Schule Budapest also helped our mission with a variety of activities.

Including the activities mentioned above, in 2022, we participated in 18 different events, including fundraising activities organized by others for the benefit of the Foundation.

These events covered a wide range of activities, like cookie sales in high schools and companies, sports activities, art auction combined with a concert, fundraising by influencers and the fundraising gala by CSODALÁMPA itself, just to name a few.

The last event of 2022 was the second charitable art exhibit in Fashion Street, which also provided an opportunity for CSODALÁMPA children to turn on the Christmas lights,

1.3.2 Other civil activities

Magic Bugs:

In 2022, our supporters launched nine fundraising programs on our www.csodabogarak.com website. During 2022, there were relatively few sport programs, instead there were more individual and corporate fundraising activities.

Among those, “Dominik’s dream” stands out. Due to his illness, the muscles of the 16-year-old boy get often strained painfully. According to his physicians, an inflatable massage pool could be most helpful. Thirty-four donors collected three-fourth of the price of such a pool, and this was supplemented by CSODALÁMPA. This effort was not in vain! Quoting from his mother’s letter:

“...after 1-2 hours of bath in the massage pool, one can feel how his muscles relax, and he can do things in the water, such as sitting on his knees, that he was able to do only with lots of pain in his room. He can stand on his feet and hands, kneel in the water, float, and do exercise under the water. He shows me and tells me proudly: “look mom, I can do this and that in the water.”

Ethical charitable fundraising organization

The CSODALÁMPA Foundation continues to be eligible to use this title.

The Self-regulating Body of Charitable Fundraising Organizations (Adománygyűjtő Szervezetek Önszabályozó Testülete or ASZÖT) supervises every year those organizations that use this title whether they meet the mandatory transparency requirements. The CSODALÁMPA Foundation is one of the 50 civil society organizations that may use this title and the associated logo on their website and other materials.

2. Our volunteers- the national wish-fulfilling network

In accordance with Law LXXXVIII of 2005, our Foundation is registered as a volunteer involving organization.

In 2022, we had 198 volunteers across the country, this number is practically unchanged from the previous year (+3 persons). In 2021, there was a significant increase (2020=145) due to the “Healing with Magic” program because the doctors, psychologists, physiotherapists, and nurses all support this activity as volunteers.

Our nation-wide wish fulfilling network

In addition, dozens of volunteers assist us in granting wishes, and some help occasionally in the work of the office.

The “traditional activities” of our volunteers--such as talking to children, inquiring about their wishes, reporting them to the foundation and the actual granting of wishes—would not have been possible without our hospital volunteers in 2022 either. They deserve every praise, as they spared no time and effort for the children, despite their complex professional responsibilities.

Only this way, with their devotion, the commitment of our colleagues and sponsors, could we achieve the fulfillment of 309 wishes in 2022!

In 2022, we did not hold a meeting of the national volunteer network, primarily because we plan a major event in 2023, a year when CSODALÁMPA will be 20 years old.

In part, to compensate for not having a full gathering of volunteers, the executive director of the Foundation and her colleagues visited the clinics across the country and the volunteers working in the regions.

During these visits, they met with the treating physicians of the “CSODALÁMPA children” and thanked them for their enormous help. They also reported on the activities and results of CSODALÁMPA, presented the “Healing with Magic” program, and the participants could even familiarize themselves with a few magic tricks.

As a result of these visits, we concluded cooperation agreements with several clinics for the introduction of the “Healing with Magic” program, and many of these initiatives have already been launched with the support of local magician volunteers. In addition, since these visits, eligible children were reported from several such wards from which previously no children were reported to CSODALÁMPA.

Major tasks of our volunteers:

Our volunteers are in charge of finding out the 'real' wish of a child; liaising with the parents, the physicians and the children, as well as the local sponsors; and organizing and documenting the fulfilment of wishes. Several of our volunteers also provide administrative assistance in our Budapest head office (administration, translation of documents, managing the website, etc.), or occasionally represent the Foundation at the events of local sponsors.

Student volunteers: Our Foundation has signed contracts with several high schools, whereby their students may undertake voluntary work for CSODALÁMPA under the provisions relating to social service activities at schools. We hope that in 2023, we will be able to show good examples of volunteer work and solidarity with sick people to our student volunteers.

Ambassadors: Our charity ambassadors are high-profile personalities – company managers, entrepreneurs – who have agreed to our request to act as ambassadors of our Foundation and promote its activities. They support our Foundation through their experience, advice, and contacts.

Our goal is to improve the stability of our country-wide wish-granting network and gradually expand its coverage in the country.

3. Operating conditions, financial status, 1% campaign

In 2022, CSODALÁMPA operated with two full-time and two part-time employees. Accounting, PR and marketing were outsourced.

During 2022, we spent 6.42% of donations for marketing activities (including the 1% campaign) and events, for fundraising purposes.

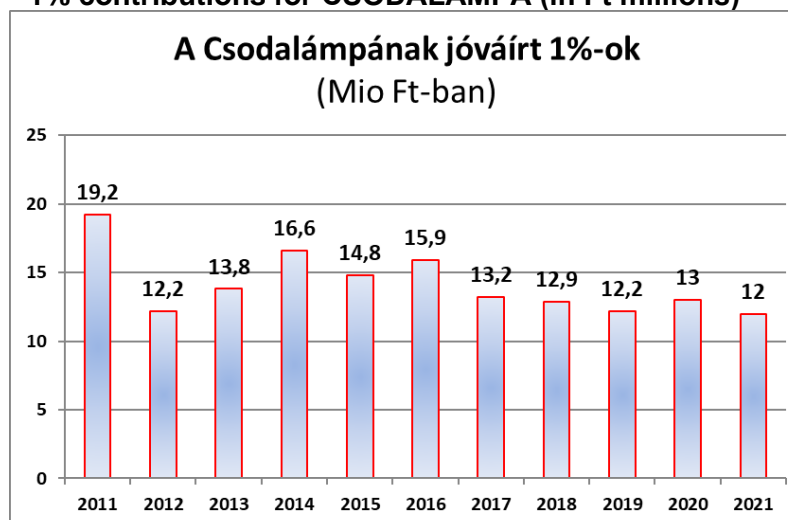

Last year, we received **749 donations for Ft 106,129,000**. In terms of value, 65% came from companies and 35% from individuals (in terms of numbers, 18% and 82%, respectively).

Unfortunately, the COVID-caused shock was followed by the war in Ukraine and the rapidly growing inflation. Thanks to our sponsors, even under these circumstances, the Foundation achieved an **accounting surplus of Ft 31,765,000 in 2022** (2021=Ft 4,163,000), which will, naturally be used for the mission of the Foundation.

The status of 1% contributions

Based on the tax year of 2021, in 2022 we received **Ft 12,002,000 in the form of 1% contributions**, Ft 1 million less than in the previous year. Unfortunately, this time the number of contributors also decreased; **1138 taxpayers chose CSODALÁMPA** (2021=1410 persons). We thanked in emails or letters all the 295 contributors (2021=265) who gave us their contact details.

1% contributions for CSODALÁMPA (in Ft millions)

In 2022, the Foundation's balance sheet total was Ft 125,035,000; total revenues amounted to Ft 132,662,000. **The 1% contributions represented 9.6% of the former and 9.05% of the latter (i.e. of total revenues), which is a significant magnitude.**

It is important to note that we did not quantify the value of our volunteer network's contribution – but suffice it to say that there would be no CSODALÁMPA without them.

The cost of fulfilling a single wish varies between ten thousand-plus Hungarian forints and hundreds of thousands (trip abroad with an accompanying parent and a CSODALÁMPA coordinator).

In 2022, due to the weakening of the Hungarian forint exchange rate, the cost of “technical” wishes, such as laptops, phones etc. significantly increased. By the end of the year because of the fast-growing inflation, even the cost of domestically purchased gifts (e.g swings, slides) increased substantially. This caused severe problems for us as we needed to raise significantly more funds to fulfill the wishes of a growing number of eligible children.

As a result, **in 2022, the average gross cost of the fulfillment of a wish (total cost divided by number of wishes granted during the year) amounted to Ft 326,524 (2020=294,780; 2021=299,056).** This means an increase of “only” 9.2%, falling way short of the high inflation prevailing in Hungary.

It is important to note that during 2022, once again, we managed to save costs by achieving discounted prices. The estimated value of these discounts amounts to Ft 12,928,730. If we take this into account when assessing the average cost of fulfilling a wish, the magnitude of saving is quite significant.

We aim to pursue a prudent investment policy. We invest our funds, which are temporarily unused, in government paper with a maturity of 3-6 months, in order to moderate the impact of inflation.

4. Media coverage in 2022

In 2022, our supporters launched 9 projects on our “Magic Bugs” website, including four in October-December.

With the kind support of Wanadis Kft. Maileon, our partner, we continued to publish a newsletter every one or two months, in which we informed our sponsors, the parents, and our volunteers about the most interesting wishes we grant and the key events we organize.

During 2022, we had 10 media appearances, slightly more than in the previous year (8). In several instances, we were presented through our sponsors (when their support programs were showcased). A close to one-hour interview with our executive director was also broadcast in SlágerFM radio in its Everyday Heroes series.

The list of media appearances is in Appendix 2.

In 2022, several major media firms also provided dedicated support for CSODALÁMPA's appearances. These included portfolio.hu, port.hu, Sláger Rádió, and Index. Observer and HVG supported us in our 1% campaign. The requisite media portfolio was the work of Inspirit Kft under its corporate social responsibility strategy. Inspirit has been our supporter from the outset.

Thanks to our volunteers who are well-versed in social media, the Foundation is present on Facebook, and we have also appeared on Instagram and LinkedIn. In addition to the 1% campaign mentioned above, we publish updates on our activities, and also

on the latest wishes fulfilled, on average once a week. CSODALÁMPA has already attracted around 33,000 followers on Facebook.

We strive to increase our presence in social media going forward.

5. The social impact of CSODALÁMPA

It is often quite difficult to quantify a project's social impact. In our case, a relevant marker would be the estimated number of people reached through the wishes granted. These include the children themselves, as well as the members of their family, the doctors, the nurses, the medical pedagogues, our volunteers, and the visitors to our Facebook page and website. We arrive at estimated numbers by applying multipliers for each category, as shown in the table below.

The number of "Magic Bugs"—those sportsmen supporting CSODALÁMPA, the organizers of "Magic Bugs" events and contributors—is underestimated since the organizers and participants of such events reach a much larger number of people than shown in the table below during their fundraising efforts, as they widely share information about the events.

Affected persons/entities	Multiplier	Estimated number/ 2022	Comment/explanation
Csodalámpa children	1	309	Number of wishes granted
Parents, siblings, close relatives	4	1 236	We assume that the number of „missing parents” (single-parent families) is compensated for by the varying number of siblings + grandparents and other relatives
Health professionals	2	618	Realistically, the multiplier may be larger than 2, but each health professional works with more than one child
Volunteers	1	194	Number of active volunteers only
"Magic Bugs"	3,5	700	Charity sportsmen, teams, event organizers, participants, concert audience: 200 persons; multiplied by 3.5 as information is shared with others
Newsletter addressees	0,01	600	Our newsletter is sent out 1-2 times per month to 12 x 5,000 addresses per year. 10% of recipients open the newsletter
Number of sponsors in 2022	1	456	Total number of companies and individuals
Internal communication among supporters	30	1 350	Private individuals and corporate employees, 50 persons/event (supporters and participants of corporate and private activities and events). 450 in total.
Followers on Facebook	0,15	4 950	Around 15% of our 33,000 followers actually read our news. Lower because of changes in Facebook rules.
Visitors to Csodalámpa.hu in 2022	1	29 000	29 000 according to Google Analytics
Total number of people reached:		39 413	

Based on the 309 wishes granted, and using cautious assumptions and estimates, in 2021, once again, CSODALÁMPA's activities impacted the lives of tens of thousands of citizens one way or another.

Budapest, May 25, 2023

Under Court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognised CSODALÁMPA Foundation as a public benefit organisation, the conditions of which continued to be met.

Excerpt from the Deed of Foundation of CSODALÁMPA Foundation:

3. THE PURPOSE OF THE FOUNDATION

3.1.1. The purpose of the Foundation is to fulfil one-one wish of such children between age 3 and 18 who are suffering in life threatening illnesses and are under permanent medical care due to this, and whose families are unable to fulfil the wishes due to lack of financial funds or the type of the respective wish.

The purpose of the Foundation is to make the life of a child with a serious permanent illness more pleasant and temporarily more carefree, therefore to strengthen the hope and belief in curing of the child and his/her family and to give strength and mental support to bear the illness and the treatments. If the child requires and it is feasible due to the resources of the Foundation, the Foundation keeps in touch with the child after the fulfilment of the wish or the rehabilitation in order to further strengthen the curing and the entire rehabilitation process.

3.1.2. Pursuant to section (1) 34 of Act CLXXV of 2011 on right of association, on charitable organisations and on operation and support of civil organizations, the Foundation performs the following non-profit activities for public interest without aim of gaining profit: it carries out curing and medical rehabilitation services in connection with public health care activity through the fulfilling of wishes in accordance with section (1)-(2) 35 of Act CLIV of 1997 on health services. The public health service tasks are statutorily carried out by state and municipal bodies; therefore the activity of the Foundation qualifies as an activity performed in the public interest.
