

PUBLIC BENEFIT STATEMENT AND ANNUAL REPORT
on the activities of the CSODALÁMPA Wish Granting Foundation
in the year 2024 based upon law 2011 CLXXV §28

Introduction

The CSODALÁMPA (Magic Lamp) Foundation has been granting one wish to any child, aged between 3 and 18, who suffers from a life-threatening illness, since 2003. By the end of 2024, we managed to **fulfil 5276 dreams**, which means that this year we granted as many as **328 new wishes** with the help of our sponsors and volunteers.

As in previous years, in addition to fulfilling wishes of sick children, in 2024, thousands of children benefitted from learning magic tricks under the **“Healing with Magic”** program, contributing to their physical and mental rehabilitation, gaining new knowledge and making their time in hospital pass faster. According to the treating physicians, this helps not only them but also those who attend to the sick children in the hospitals.

As part of a strategic sponsorship cooperation, in April 2024 we launched the **“Soul-Sound-Play”** program, the main objectives of which include: the improvement of hospital environment and contribution to the rehabilitation of sick children; psychological support to parents and their children who are beneficiaries of CSODALÁMPA by trained professionals; and special, accredited training for high school students and their teachers to prepare them to support the smooth reintegration into the school environment of students with chronic illnesses or those who have gone through lengthy treatments.

We would like to thank, on behalf of the children benefitting from CSODALÁMPA, our old and new volunteers, supporters and sponsors, the members of our Board of Trustees, Supervisory Committee and our Ambassadors that, together, in the past 22 years, we could make more and more sick children happy and perhaps contribute a bit to their recovery.

The feedback from doctors, parents, and children who have benefitted from CSODALÁMPA, as well as close to 5500 testimonials with photos, posted on our website confirm that an unexpected positive experience, the fulfilment of a wish that has often seemed unachievable, provides strength to overcome the illness and deal with the long, unpleasant and often painful treatments.

We trust that with your support and the support of your friends and colleagues, we will be able to bring joy and further unforgettable experiences to ever more children over the coming years, also supporting the healing work of doctors.

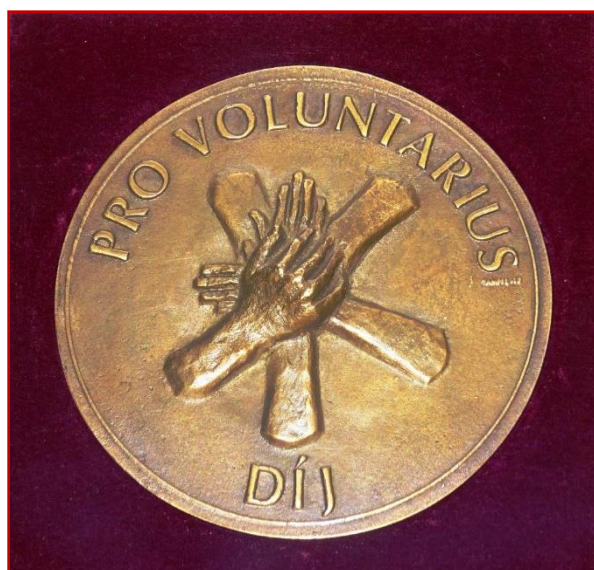

Budapest, May 27, 2025

1. ACTIVITIES OF THE FOUNDATION IN 2024

Under court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognized CSODALÁMPA Foundation as a public benefit organization, the conditions of which we have continued to fulfil.

1.1 Target group and achievements

The Foundation focuses on children aged between 3-18 years who suffer from life-threatening illnesses and receive treatment in Hungary. The objective of the Foundation is to alleviate the mental trauma associated with their treatment and support their recovery.

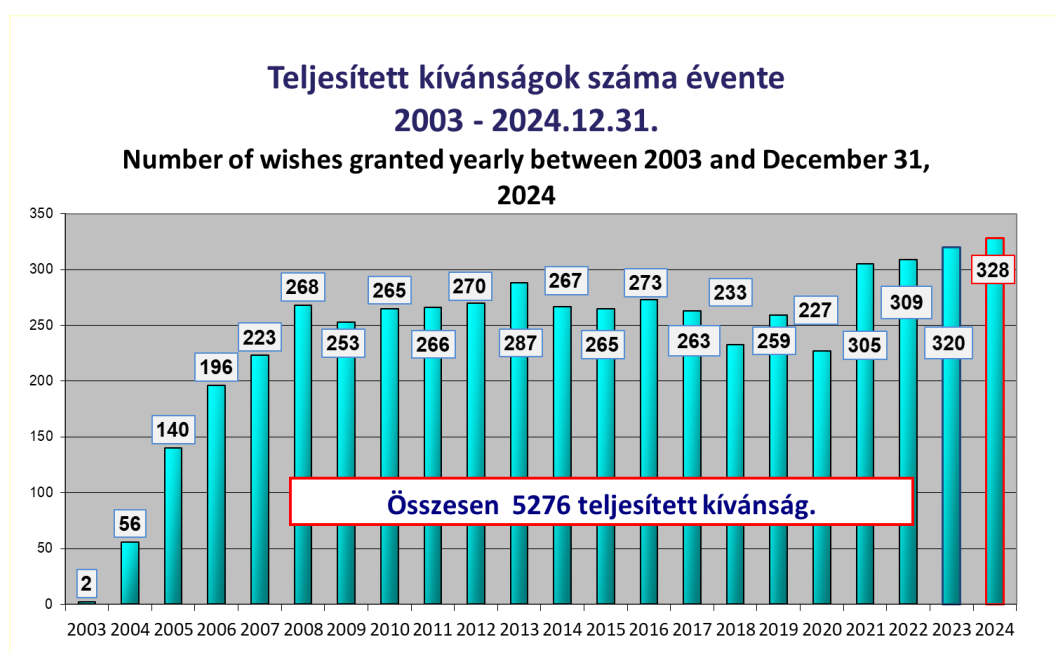

This objective is being pursued by fulfilling the wishes of sick children (normally one wish by each child) and by the playful teaching of magic tricks that diverts their attention from the often-painful treatments, reduces stress and supports their therapies. These activities are complemented by the 'Soul-Sound-Play' program, enriching our mission in new but related areas of support.

Granting of wishes

An eligible child may be reported to CSODALÁMPA directly by the child, his/her parents or guardian, the treating physician or other medical staff contributing to his/her treatment or a CSODALÁMPA volunteer. Except for those with relapsing disorders or having more than one life-threatening illness, each sick child may have one wish, something that is dearest to his or her heart.

CSODALÁMPA does not offer a pre-set 'menu' of wishes. Instead, we always try to ascertain exactly what the child truly desires and then fulfil that wish with the help of our sponsors and country-wide network of volunteers.

The primary objective of CSODALÁMPA is to fulfil wishes: the joy caused by granting a wish has a psychologically rehabilitative effect on the children and their families.

The following conditions must be met for a wish to be registered:

- The child must be aged between 3 and 18 years at the time of registering the wish

- A physician must certify the nature of the illness and must give consent to the wish being granted
- The guardian must also consent to the wish being granted

The physician's consent is essential due to the circumstances of the granting of a wish (for example, the assessment of post-operation condition, fitness to travel or to be part of a crowd at a rock concert or soccer match or need for the presence of an ambulance or a doctor when the wish is fulfilled, etc.).

The range of illnesses that bring children under the mandate of CSODALÁMPA is unfortunately very wide – hundreds have been identified - and therefore we do not use a definitive list of illnesses to determine eligibility; instead, we base our decisions on accepting wishes on the recommendations of our doctor volunteers and the treating physicians.

To our knowledge, at any one time, thousands of children in Hungary are eligible to be granted a wish by CSODALÁMPA.

CSODALÁMPA's "Healing with Magic"

"Healing with Magic" is based on David Copperfield's "Project Magic" but adapted to the conditions of the Hungarian children's clinics by Botond Kelle, magician, who has provided professional leadership of the program. "Healing with Magic", through simple and more complex magic tricks, contributes to the physical and mental rehabilitation of children. The tricks used in the program improve the physical and mental capabilities of children, reduce the stress induced by the treatments and the hospital environment in general, and even motivate them to implement the sometimes-painful physio-therapeutical exercises, for example by teaching a new trick as a reward.

Currently, the "Healing with Magic" program is used successfully daily in several wards of 15 large children's clinics country-wide.

Our volunteer magicians teach the tricks to hospital staff (doctors, psychologists, therapists, and nurses) who in turn teach the same to children during their treatments. The volunteer magicians also teach some of the children directly and provide continuous education to medical staff. In doing so, they also come up with new tricks, at the requests of the physicians, that suit particular illnesses.

The props and the description of tricks are provided to participants free of charge by CSODALÁMPA, using the contributions of our sponsors. Since the beginning of the program, we have provided several thousand magic boxes to children and their treating physicians and hospital staff with the help of participating hospital wards.

We hope that during 2025, we will be able to introduce this program to more clinics and clinical wards and that our volunteer magicians will be able to continue to teach hospital staff and the sick children directly, contributing to their recovery.

Soul-Sound-Play

It has been a great honor that in 2024, the Morgan Stanley International Foundation concluded a five-year strategic cooperation and sponsorship agreement with CSODALÁMPA. Due to this agreement, we were able to launch a new complex program to support the families of sick children, the children themselves and the hospitals.

The program consists of the following components:

Soul

With help of trained professionals, we provide psychological support to parents of children who are CSODALÁMPA beneficiaries (and thus indirectly to the children and their siblings), who mentally struggle with the changed family situation due their children's sickness.

Sound

We hold awareness-raising programs with the help of #UP ÚjPedagógia (New Pedagogy) to prepare teachers and students to keep their sick classmates included during their treatment and facilitate their reintegration into the school community once they return.

Play

On the yards of children hospitals we renovate or build new playgrounds, and in the hospitals or clinics we create playrooms or sensory rooms, and conduct exercises to develop skills to support rehabilitation. We also help hospitals, through this program, to hold rehabilitation camps for the sick children, their parents and siblings.

During 2024, we achieved the following results thanks to this program:

- We handed over two sensory rooms (Miskolc, Budapest) thus helping the rehabilitation of 480 children, and one playground. Another playground was renovated with the participation of Morgan Stanley volunteers.
- 111 children and 87 parents or caregivers benefitted from psychological support.
- 240 sick children participated in the 'Healing with Magic' program with the participation of Morgan Stanley volunteers.
- 233 students and 55 teachers attended the school awareness raising activities.

It is important to note that according to a new Ministry of Interior regulation issued in the spring of 2024, the receipt of any donation over Ft 50,000 must be approved by the Director General

for Hospitals. According to our information, the large number of such applications and the time needed for their evaluation significantly slow down the implementation of new/renovated playrooms, sensory rooms and playgrounds, since the respective works contracts cannot be signed before the approval is granted. We have received all necessary approvals, thus we are able to bring joy to the staff of such clinics, the sick children and their parents.

We will continue the 'Soul-Sound-Play' program in 2025 and will expand it with the support for select number of children's clinics to organize max. one-week long rehabilitation camps for

sick children and their parents.

1.2 Types of wishes granted and their geographical distribution

1.3 Other activities

1.3.1 Events and appearances

We held our annual country-wide meeting of volunteers on April 27, 2024. We presented the activities of the foundation and its plans, and this was followed by the introduction of new participants, professional training together with the communications students of the Budapest Technical University, group discussions, and a broad exchange of views.

During the autumn of 2024, we, once again, organized our programs for students.

The **14. "Walk for sick children"** organized by the **József Eötvös high school** was held, because of the flood, in Városliget (City Park) this time. As in the past, several high schools joined the event, with hundreds of students participating, joined by their teachers. Thanks to the donations of students, the wishes of Dénes and Dávid could be fulfilled, which was followed by a joyful walk of the students carrying balloons.

The **18. Walk-the-Wish** organized by the **American International School of Budapest (AISB)** for the first time - because of the rainy weather – could not be held. In the gym hall several hundred students and their teachers gathered, however, to learn about our mission and activities, and to figure out who those 9 children were whose wishes the students could turn into reality. It has been a great honor to have cooperated with this school for close to two decades. In 2024, together we could fulfill the wishes of 11 sick children, and from the first walk organized by the school until the end of 2024, in total, 154 children benefitted directly from this cooperation.

The British International School Budapest, and the students and teachers of the Thomas Mann Gymnasium-Deutsche Schule Budapest also helped our mission with several actions.

On November 15, 2024, we celebrated the 21st birthday of our foundation with a **benefit gala dinner** in the ballroom of the **Corinthia hotel**. This time, it was an Italian-themed evening, with Klaudia Liptai hosting the event. There was a fantastic show, performed by the students of the Imre Baross Acrobatforming Academy, and children whose dreams had been fulfilled by CSODALÁMPA shared their experiences. We also enjoyed the wonderful voice of the world-renown singer, Erika Miklósa and the stand-up performance of Gergely Litkai was honored with great applause. The evening was closed with Italian songs by Gyöngy Deák, whose child, now adult, once benefitted from

CSODALÁMPA. As in the past, we fulfilled three wishes during the evening from the donations of the supporters of the event.

Celebrating our 21st birthday, with the support of **Vígsház**, we held the **second Magic Day** on November 30, 2024. The musical, Pinocchio was performed, and the spectators could buy specially priced tickets to benefit our foundation.

In addition to those mentioned above, another six events were organized for CSODALÁMPA, e.g. the **Budapest Strings Chamber Orchestra** held a concert for Mothers' Day in the Szent Család Plébániatemplom in Zugliget. There was also a dragon boat, collecting donations, and bicycle and running competitions among the events to collect funding for our mission.

As usual, the last event of 2024, was on the Fashion Street on December 6. Once again, CSODALÁMPA children turned on the Christmas lights, in addition to their wishes having been fulfilled.

1.3.2 Other interesting facts

- Our Managing Director, Éva Patzauer received the „WomenPower” prize (az Év Tudatos Nője) in 2024 for her work in CSODALÁMPA.
- The rebranding of the Foundation, started in 2023, did not finish in 2024, the updating and revamping of the website is still ahead of us. Part of the reason for the delay is that our website is specifically developed for a number of particular services, from the automated mailing of name day and birthday wishes through the collection of donations to the organization of „Magic bugs” events. Another part of the reason was the shockingly high prices quoted for the modernization of the website. We are trying to find a sponsor for this task through our ambassadors.

- In June 2024, our foundation was named the 'Charity of the Year' by the jury of the Hungarian Business Champions Conference for its charitable activities. This has been a special honor.
- Based on the offer of Talk-A-Bot, we started to develop a chatbot with them for our website. The objective is for the chatbot to provide general information regarding the history, activities, programs and volunteering opportunities of CSODALÁMPA. The machine learning phase and testing are underway.

International relations

In 2024, the collaboration among the member organizations of **Wish Alliance**² continued. In September 2024, in Madrid, organized by the Fundación Pequeno Deseo the Spanish member of the alliance, and in December 2024, in Poznan, organized by the Polish Mam Marzenie foundation, all the member organizations got together. The leadership and colleagues of the host organizations presented their funding strategies, internal regulations

² The Wish Alliance (<https://www.wishalliance.eu/>) is the alliance of a Czech, Hungarian, Polish, Estonian and Spanish wish fulfilling foundations, supported by the European Union's Erasmus+ program. Our objective is to support each other, for example by sharing best practices, helping each other to solve commonly experienced problems, and with our respective networks to help e.g. in organizing meetings with famous people.

and responded to our questions. In Poland, we could attend the 20th anniversary celebration of Mam Marzenie.

In 2025, we will continue our collaboration. The Czech Zlata Rybka foundation, with our participation, got in touch with other European foundations with the same mission who also want to join the alliance supported by the European Union's Erasmus+ program.

As mentioned earlier, this collaboration has led to the meeting with tennis star, Carlos Alcaraz, but also to the new methods we have introduced to gauge new wishes and to collect donations in 2024.

Magic Bugs:

In 2024, our supporters launched four fundraising programs on our www.csodabogarak.com website:

- Together for the dreams (Együtt az álmokért)
- Sziget Suli – Charity Program
- CEE employee initiative and fundraising during the UEFA EURO Championship
- Power lies in unity (Egységben az erő)

The four fundraising activities collected Ft 1,516,498, which we have spent according to our mission.

Due to the capacity needs of the Morgan Stanley program, the 'Magic Bugs' activities last year were somewhat constrained. Perhaps the most important of the four was the „Together for the Dreams” initiated by an influencer supporter of our foundation as this initiative has managed to reach out to a large number of young, potential supporters and introduced CSODALÁMPA to them. We will strive to reinvigorate the Magic Bugs program in 2025.

Ethical charitable fundraising organization

The CSODALÁMPA Foundation continues to be eligible to use this title.

The Self-regulating Body of Charitable Fundraising Organizations (Adománygyűjtő Szervezetek Önszabályozó Testülete or ASZÖT) supervises every year those organizations that use this title whether they meet the mandatory transparency requirements. The CSODALÁMPA Foundation is one of only 60 civil society organizations that may use this title and the associated logo on their website and other materials.

2. Our volunteers- the national wish-fulfilling network

In accordance with Law LXXXVIII of 2005, our foundation is registered as a volunteer involving organization.

At end-2024, we had 201 volunteers; this number is practically unchanged compared to the previous year. Our volunteers help us in identifying and granting wishes, facilitating the work of the office, organizing events, teaching magic tricks in hospitals and of course, in the implementation of the 'Soul-Sound-Play' program.

Our country-wide volunteer network

The “traditional activities” of our volunteers--such as talking to children, inquiring about their wishes, reporting them to the Foundation and the actual granting of wishes—would not have been possible without our hospital volunteers in 2024 either. They deserve every praise, as they spared no time and effort for the children, despite their ever-increasing workload due to the well-known staffing shortages

Only this way, with the devotion of our volunteers and the commitment of our colleagues and sponsors, could we achieve the fulfillment of 328 wishes in 2024.

We have been offered to participate in a survey on the „**Examination of satisfaction with volunteering work**”, carried out by a PhD student from Loránd Eötvös University, supported by the National Fund for Research, Development and Innovation. This survey compared the responses of our volunteers and with those of other charities, representing the survey sample. The results are summarized in the table below.

	Csodalámpa Alapítvány	Teljes magyar minta	Differencia
Önkéntes munkával való elégedettség összpontszám (min: 26; max: 182)	161,2	153,6	+7,6
Elégedettség a szervezettel (min: 14; max: 98)	88,8	84,1	+4,7
Személyes növekedés és a proszociális hatás érzése (min: 8; max: 56)	49,7	47,3	+2,4
Kapcsolat az önkéntestársakkal (min: 4; max: 28)	22,7	22,2	+0,5

„Compared to the entire sample, CSODALÁMPA performs better in every dimension of volunteers’ satisfaction. In other words, our volunteers are more satisfied than the average.”

Our volunteers were not fully satisfied with the amount of time spent interacting with each other. As this is a country-wide network of volunteers, the annual meetings can only help so much in this respect, but we try to come up with new ideas to allow more time for our volunteers to interact.

On the positive side, our volunteers were quite happy with their relationships with the management and colleagues of the Foundation, the support they receive and the good quality of the information flow.

The managing director and staff of the foundation, in 2024, visited the partner pediatric clinics around the country and the volunteer groups in those areas. During these visits, they met with the doctors and thanked them for their active support of the Foundation, presented the activities and results of CSODALÁMPA, and demonstrated the „Healing with Magic” program. Participants could even learn some tricks during these visits.

As a result of such visits, we have been able to conclude new agreements with additional clinics outside of Budapest for collaboration in the „Healing with Magic” program. In several such clinics, local volunteer magicians have already launched the program. In addition to this positive result, since the visits, we have received wishes of eligible children from wards that had never before contacted our foundation.

Major tasks of our volunteers:

Our volunteers are in charge of finding out the ‘real’ wish of a child; liaising with the parents, the physicians and the children, as well as the local sponsors; and organizing and documenting the fulfilment of wishes. Several of our volunteers also provide administrative assistance in our Budapest head office (administration, translation of documents, managing the website, etc.), or occasionally represent the Foundation at the events of local sponsors.

Student volunteers: Our foundation has signed contracts with several high schools, whereby their students may undertake voluntary work for CSODALÁMPA under the provisions relating to social service activities at schools. We hope that in 2025, we will be able to show good examples of volunteer work and solidarity with sick people to our student volunteers.

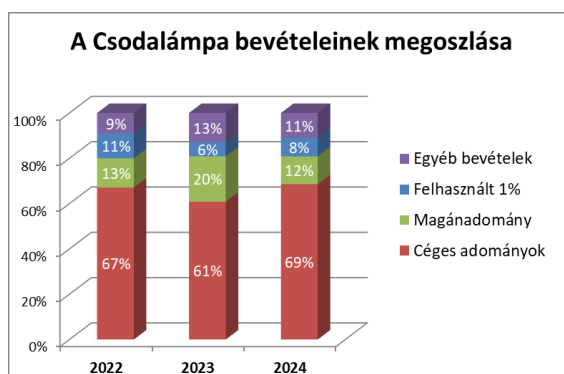

Ambassadors: Our charity ambassadors are high-profile personalities – company managers, entrepreneurs – who have agreed to our request to act as ambassadors of our Foundation and promote its activities. They support our foundation through their experience, advice, and contacts.

Our goal is to improve the stability of our country-wide wish-granting network and gradually expand its coverage in the country.

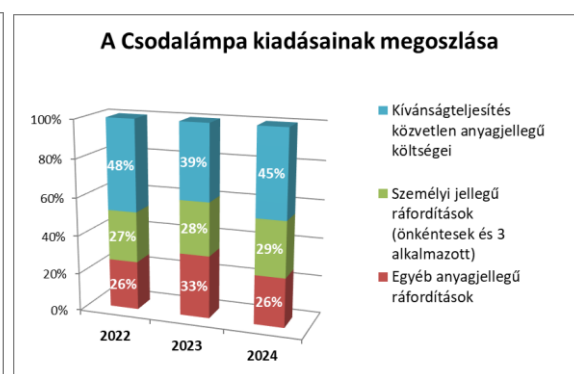

3. Operating conditions, financial status, 1% campaign

In 2024, CSODALÁMPA operated with three full-time and two part-time employees. Accounting, PR and marketing were outsourced.

Distribution of CSODALÁMPA incomes

Distribution of CSODALÁMPA expenditures

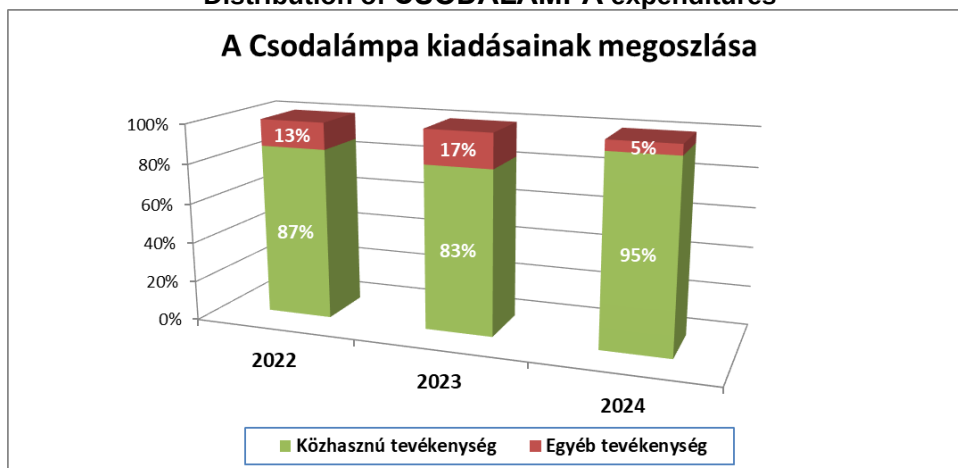

During 2024, we spent 12.2% of the donations received during the year for marketing activities (including the 1% campaign) and events for fundraising purposes.

Last year, we received a total of **Ft 133,170,000** donation from several hundred supporters. In terms of value, 88% came from companies and 12% from individuals. In previous years, the proportion was roughly 65-35%; the major difference this year is the donation from Morgan Stanley under our strategic cooperation framework that represented a significant weight in the total. In terms of the share of companies and individuals by number, the proportions have not changed much, they were 24% and 76%, respectively.

In 2024, we achieved an accounting surplus of about Ft 560,000 (2023 = Ft 20,671,000) – which will, naturally be used for the mission of the Foundation. The significantly lower amount in 2024 is due to the fact that a significant part of Morgan Stanley's contribution was advanced in 2024 for activities in 2025 and thus was carried forward accordingly.

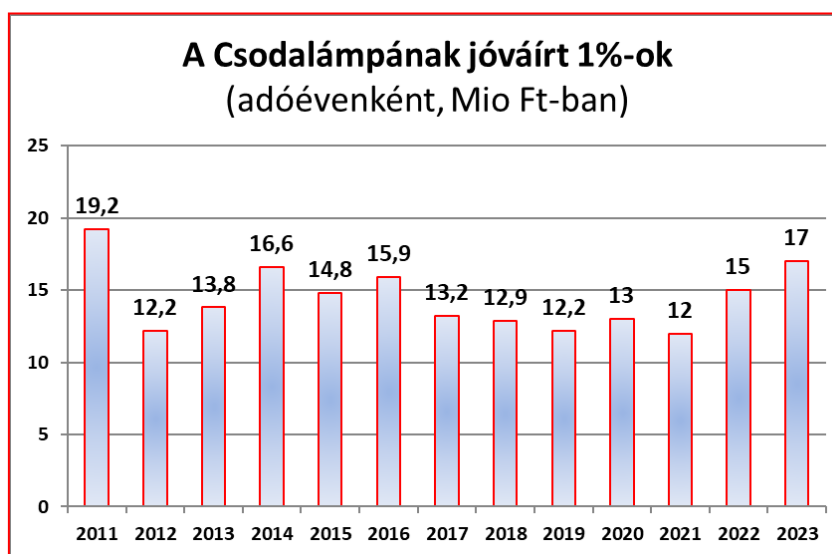

Distribution of CSODALÁMPA expenditures

The status of 1% contributions

Based on the tax year of 2023, in 2024 we received **Ft 17,347,000 in the form of 1% contributions**, close to Ft 2 million more than in the previous year. Unfortunately, the number of contributors grew only by a few persons, overall **1,473** taxpayers chose CSODALÁMPA in 2024 (2023=1,464).

1% contributions for CSODALÁMPA (in Ft millions)

In 2024, the Foundation's balance sheet total was Ft 182,252,000; total revenues amounted to Ft 164,707,000. **The 1% contributions represented 9.5% of the former and 10.5% of the latter (i.e. of total revenues), which is a significant magnitude.**

It is important to note that we did not quantify the value of our volunteer network's contribution – but suffice it to say that there would be no CSODALÁMPA without them.

The cost of fulfilling a single wish varies between tens of thousands of forints to hundreds of thousands (a trip abroad with an accompanying parent and a CSODALÁMPA coordinator).

In 2024, the earlier trend of significant price increases of „technical” wishes, such as laptops, phones, etc. continued. Even the cost of domestically produced goods (e.g. swings, slides and other outdoor toys of which we had 33 in 2024) also increased substantially. This caused severe problems for us as we needed to raise significantly more funds to bring joy and provide strength to a growing number of eligible children.

As a result, in **2024, the average cost of the fulfillment of a wish (total cost divided by the number of wishes granted) amounted to Ft 500,448 Ft volt** (2023=402,219). The average increase of 24% is justified by the large number of foreign trips, in part because of the weak exchange rate and in part because of the significant inflation of prices abroad, affecting the cost of accommodations, transport, food and entrance tickets.

It is important to note that during 2024, once again, we managed to save costs by achieving discounted prices. **The estimated value of these discounts amounts to Ft 26,062,000.** If we take this into account when assessing the average cost of fulfilling a wish, the magnitude of saving is quite significant.

We aim to pursue a prudent investment policy. We invest our funds, which are temporarily unused, in government paper with a maturity of 3-6 months, to moderate the impact of inflation.

4. Media coverage in 2024

With the kind support of Wanadis Kft. Maileon, our partner, we continued to publish a newsletter every one or two months, in which we informed our sponsors, the parents, and

our volunteers about the most interesting wishes we granted and the key events we organized.

In 2024, we had 7 media appearances. In most cases, we were presented through our supporters (showing their contributions), nonetheless, we experienced increased media attention to our events and collaborations, compared to the previous

year. For example, our managing director gave a one-hour interview to Júlia Varga for Bézs Rádió. Also, Miskolc television reported on the newly completed sensory room at the local clinic.

The list of media appearances is in Appendix 2.

In 2024, several major media firms also provided dedicated support for CSODALÁMPA's appearances. These included portfolio.hu, port.hu, MédiaWorks, and Index, Observer and HVG supported us in our 1% campaign. The requisite media portfolio was the work of Inspirit PR Agency under its corporate social responsibility strategy. Inspirit has been our supporter from the outset.

We post at least once a week on Facebook, Instagram and LinkedIn, and also share partner events, strengthening our social media presence. The increased funding for our 1% advertising campaign resulted in a better outreach that we will continue to intensively manage.

We have about 34,000 followers on Facebook (unchanged), and we see an increase in the number of followers on our Instagram and LinkedIn platforms. In addition to the targeted advertisements, the primary objective is to strengthen our brand, to which we continue to pay much attention.

5. The social impact of CSODALÁMPA in 2024

It is often quite difficult to quantify a project's social impact. In our case, a relevant marker would be the estimated number of people reached through the wishes granted. These include the children themselves, as well as the members of their family, the doctors, the nurses, the medical pedagogues, our volunteers, and the visitors to our Facebook page and website. We arrive at estimated numbers by applying multipliers for each category, as shown in the table below.

The number of "Magic Bugs"—those sportsmen supporting CSODALÁMPA, the organizers of "Magic Bugs" events and contributors—is underestimated since the organizers and participants of such events reach a much larger number of people than shown in the table below during their fundraising efforts, as they widely share information about the events.

Affected persons/entities	Multiplier	Estimated number/ 2024	Comment/explanation
CSODALÁMPA children	1	328	Number of wishes granted
Parents, siblings, close relatives	4	1312	We assume that the number of „missing parents” (single-parent families) is compensated for by the varying number of siblings + grandparents and other relatives=avg 4 relatives
Health professionals	2	656	Realistically, the multiplier may be larger than 2, but each health professional works with more than one child
Volunteers	1	201	Number of active volunteers only
"Magic Bugs"	3.5	570	Charity sportsmen, teams, event organizers, participants, concert audience: 163 persons; multiplied by 3.5 as information is shared with others
"Healing with Magic"	4	5120	The number of magic boxes in 2024=1280. Children show the tricks to their families and friends, at least to 4 persons
Newsletter addressees	0,1	7200	Our newsletter is sent out 1-2 times per month to 12 x 6000 addresses per year. 10% of recipients open the newsletter
Number of sponsors in 2024	1	632	Total number of companies and individuals
Internal communication among supporters	3	1350	Private individuals and corporate employees, 50 persons/event (supporters and participants of corporate and private activities and events). 450 in total.
"Soul-Sound-Play" internal communication	1	3000	Morgan Stanley's internal communication
Followers on Facebook	0.2	6800	Around 20% of our 34,000 followers are reached by our news (because of the FB algorithm)
Visitors to Csodalampa.hu in 2024	1	24000	24000 according to Google Analytics
Total number of people reached:		51169	

Based on the 328 wishes granted, and using cautious assumptions and estimates, in 2024 once again, CSODALÁMPA's activities impacted the lives of tens of thousands of citizens, hopefully in a positive way.

Budapest, May 27, 2025.

Gábor Nagymarosy
Chairman of the Board

Under Court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognized CSODALÁMPA Foundation as a public benefit organization, the conditions of which continued to be met.

Excerpt from the Deed of Foundation of CSODALÁMPA Foundation:

3. THE PURPOSE OF THE FOUNDATION

3.1.1. The purpose of the Foundation is to fulfil one-one wish of such children between age 3 and 18 who are suffering in life threatening illnesses and are under permanent medical care due to this, and whose families are unable to fulfil the wishes due to lack of financial funds or the type of the respective wish.

The purpose of the Foundation is to make the life of a child with a serious permanent illness more pleasant and temporarily more carefree, therefore to strengthen the hope and belief in curing of the child and his/her family and to give strength and mental support to bear the illness and the treatments. If the child requires and it is feasible due to the resources of the Foundation, the Foundation keeps in touch with the child after the fulfilment of the wish or the rehabilitation in order to further strengthen the curing and the entire rehabilitation process.

3.1.2. Pursuant to section (1) 34 of Act CLXXV of 2011 on right of association, on charitable organizations and on operation and support of civil organizations, the Foundation performs the following non-profit activities for public interest without aim of gaining profit: it carries out curing and medical rehabilitation services in connection with public health care activity through the fulfilling of wishes in accordance with section (1)-(2) 35 of Act CLIV of 1997 on health services. The public health service tasks are statutorily carried out by state and municipal bodies; therefore the activity of the Foundation qualifies as an activity performed in the public interest.

Appendix 2 – List of media appearances (2024)
